Greening your skill set

Sustainable finance provides exciting opportunities for the financial services sector and professionals.

Financial services sector professionals will have to upskill and reskill to take on additional sustainable finance-related tasks as part of their augmented job roles.

Discover how you can acquire these skills to play crucial roles towards a more sustainable future!

More than
100 IBF-approved¹ sustainable finance courses available

Over
65 new courses will be launched to equip you with the necessary skills

¹ Courses that are accredited under the IBF Standards Training Scheme (IBF-STTS) or recognised under the Financial Training Scheme (FTS).
