Notes for completion

1. A Merchant Bank must fill in columns (2) and (3) for its consolidated currency and SGD and each of its significant currency submission.
2. A Merchant Bank must report columns (2) and (3) as at the close of business on the reporting day.
3. Column (2) is the stock of adjusted High Quality Liquid Assets, as computed under the LCR framework, converted to Singapore dollars at the end of day FX rate, and rounded to the closest thousand Singapore dollars. The Merchant Bank may use its internal FX rates.
4. Column (3) is the net cash outflow, as computed under the LCR framework, converted to Singapore dollars at the end of day FX rate as computed by the Merchant Bank, and rounded to the closest thousand Singapore dollars.
5. Fill in "0" for this section if the Merchant Bank is on the MLA framework.

Section 1A

B) High Quality Liquid Assets

S\$ '000

1. Level 1 HQLA		Paragraph number in notice	Market value	Weight	Weighted amount
a.	Coins and banknotes	19, 25		100%	
b.	Total central bank reserves; of which:	19, 25			
	i. part of central bank reserves that can be drawn in times of stress	19, 25		100%	
	Securities with a 0% risk weight:				
	i. issued by sovereigns	19, 25		100%	
	ii. guaranteed by sovereigns <u>and it is not an obligation of an FI or any of its related corporations except where the FI is also a PSE</u>	19, 25		100%	
	iii. issued or guaranteed by central banks	19, 25		100%	
	iv. issued or guaranteed by PSEs	19, 25		100%	
	v. issued or guaranteed by BIS, IMF, ECB and European Union, the European Stability Mechanism, the European Financial Stability Facility, or MDBs	19, 25		100%	
d.	For non-0% risk-weighted sovereigns, sovereign or central bank debt securities issued by the sovereign or its central bank where the sovereign is the Singapore Government or the central bank is the Authority, or where the sovereign or central bank is from a foreign country or jurisdiction where a Merchant Bank has a branch or subsidiary that is approved, licensed, registered or otherwise regulated by a bank regulatory agency in the foreign country or jurisdiction to carry on banking business under the laws of the foreign country or jurisdiction and the Merchant Bank or its subsidiary takes liquidity risk in that country or jurisdiction:				
	i. issued in domestic currencies	19, 25		100%	
	ii. issued in foreign currencies, up to the amount of the Merchant Bank's total net cash outflows in that specific foreign currency arising from the operations of the Merchant Bank or its subsidiary, in Singapore or that country or jurisdiction, as the case may be	19, 25		100%	
e.	Total stock of Level 1 HQLA	19, 25			
f.	Adjustment to stock of Level 1 HQLA	Appendix 6			
g.	Adjusted amount of Level 1 HQLA	Appendix 6			

2. Level 2A HQLA		Paragraph number in notice	Market value	Weight	Weighted amount
	Securities with a 20% risk weight:				
	i. issued by sovereigns	19, 25		85%	
	ii. guaranteed by sovereigns <u>and it is not an obligation of an FI or any of its related corporations except where the FI is also a PSE</u>	19, 25		85%	
	iii. issued or guaranteed by central banks	19, 25		85%	

	iv.	issued or guaranteed by PSEs	19, 25		85%	
	v.	issued or guaranteed by MDBs	19, 25		85%	
b.		Non-financial corporate bonds, rated AA- or better	19, 25		85%	
c.		Covered bonds, not self-issued, rated AA- or better	19, 25		85%	
d.		Total stock of Level 2A HQLA	19, 25			
e.		Adjustment to stock of Level 2A HQLA	Appendix 6			
f.		Adjusted amount of Level 2A HQLA	Appendix 6		85%	

3. Level 2B(I) HQLA

			Paragraph number in notice	Market value	Weight	Weighted amount
a.		Non-financial corporate bonds rated at least A-	19, 25		50%	
b.		Total stock of Level 2B(I) HQLA	19, 25			
c.		Adjustment to stock of Level 2B(I) HQLA	Appendix 6			
d.		Adjusted amount of Level 2B(I) HQLA	Appendix 6		50%	

4. Level 2B(II) HQLA

			Paragraph number in notice	Market value	Weight	Weighted amount
a.		Qualifying sovereign, central bank and PSE debt securities rated at least BBB-	19, 25		50%	
b.		Non-financial corporate bonds rated at least BBB-	19, 25		50%	
c.		Residential mortgage-backed securities (RMBS), rated AA or better	19, 25		75%	
d.		Non-financial common equity shares that are index stocks, with maximum price decline over a 30 days period below 40%	19, 25		50%	
e.		Total stock of Level 2B(II) non-RMBS HQLA	19, 25			
f.		Adjustment to stock of Level 2B(II) non-RMBS HQLA	Appendix 6			
g.		Adjusted amount of Level 2B(II) non-RMBS HQLA	Appendix 6		50%	
h.		Total stock of Level 2B(II) RMBS HQLA	19, 25			
i.		Adjustment to stock of Level 2B(II) RMBS HQLA	Appendix 6			
j.		Adjusted amount of Level 2B(II) RMBS HQLA	Appendix 6		75%	
k.		Adjusted amount of Level 2B(II) RMBS and non-RMBS HQLA	Appendix 6			

5. Alternative Liquid Assets

			Paragraph number in notice	Market value	Weight	Weighted amount
a.		Option 1 – Contractual committed liquidity facilities from the relevant central bank	19, 25			
b.		Option 2 – Foreign currency HQLA; of which:				
	i.	Level 1 HQLA	19, 25			
	ii	Level 2 HQLA	19, 25			
c.		Option 3 – Additional use of Level 2 HQLA with a higher haircut	19, 25			
d.		Total usage of alternative treatment (post-haircut) before applying the cap				
e.		Adjustment to ALA due to cap on Option 1 and 2				

f.	Total usage of alternative treatment (post-haircut) after applying the cap on Option 1 and 2		
----	--	--	--

6. Stock of High Quality Liquid Assets				
a.	Adjustment to stock of HQLA due to cap on Level 2B(II) HQLA	Appendix 6		
b.	Adjustment to stock of HQLA due to cap on Level 2B(I) HQLA	Appendix 6		
c.	Adjustment to stock of HQLA due to cap on Level 2 HQLA	Appendix 6		
d.	Total stock of HQLA			

C) Cash outflows

S\$'000

1. Cash outflows		Paragraph number in notice	Amount	Weight	Weighted amount
a.	Total retail deposits; of which:				
	i. Insured deposits; of which:				
	- in transactional accounts; of which:	40-43, 64B			
	- eligible for a 3% cash outflow rate; of which:	43, 64B			
	are in Singapore	43, 64B		3%	
	are not in Singapore	43, 64B		3%	
	- eligible for a 5% cash outflow rate; of which:	42D, 43, 64B			
	are in Singapore	42D, 43, 64B		5%	
	are not in Singapore	42D, 43, 64B		5%	
	- in non-transactional accounts with established relationships that make deposit withdrawal highly unlikely; of which:	40-43, 64B			
	- eligible for a 3% cash outflow rate; of which:	43, 64B			
	are in Singapore	43, 64B		3%	
	are not in Singapore	43, 64B		3%	
	- eligible for a 5% cash outflow rate; of which:	42D, 43, 64B			
	are in Singapore	42D, 43, 64B		5%	
	are not in Singapore	42D, 43, 64B		5%	
b.	- in non-transactional and non-relationship accounts	44, 44A, 64B		10%	
	ii. Uninsured deposits	44, 44A, 64B		10%	
	iii. Term deposits (treated as having >30 day remaining maturity)	45-45B, 64B		0%	
	iv. Term deposits (with >30 day maturity but treated as having < 30 day maturity)	45-45B, 64B			
b.	Retail/Small business customer deposits subject to different cash outflow rates in accordance with foreign country's or jurisdiction's rules	43, 50, 64B, 120			
c.	Total retail deposits cash outflows				
d.	Total unsecured wholesale funding	47-64, 64B			
	i. Total funding provided by small business customers; of which:	50, 64B			
	- Insured deposits; of which:				
	- in transactional accounts; of which:	40-43, 50, 64B			
	- eligible for a 3% cash outflow rate; of which:	43, 50, 64B			
	are in Singapore	43, 50, 64B		3%	
	are not in Singapore	43, 50, 64B		3%	

	-	eligible for a 5% cash outflow rate; of which:	42D, 43, 50, 64B			
		are in Singapore	42D, 43, 50, 64B		5%	
		are not in Singapore	42D, 43, 50, 64B		5%	
	-	in non-transactional accounts with established relationships that make deposit withdrawal highly unlikely; of which:	40-43, 50, 64B			
	-	eligible for a 3% cash outflow rate; of which:	43, 50, 64B			
		are in Singapore	43, 50, 64B		3%	
		are not in Singapore	43, 50, 64B		3%	
	-	eligible for a 5% cash outflow rate; of which:	42D, 43, 50, 64B			
		are in Singapore	42D, 43, 50, 64B		5%	
		are not in Singapore	42D, 43, 50, 64B		5%	
	-	in non-transactional and non-relationship accounts	44, 44A, 50, 64B		10%	
	-	Uninsured deposits	44, 44A, 50, 64B		10%	
	-	Term deposits (treated as having >30 day maturity)	45-45B, 50, 64B		0%	
	-	Term deposits (with >30 day maturity but treated as having < 30 day maturity)	45-45B, 50, 64B			
	ii.	Total operational deposits; of which:	51-57B, 64B			
	-	provided by non-financial corporates	51-57B, 64B			
	-	insured, eligible for a 3% cash outflow rate	51-57B, 64B		3%	
	-	insured, eligible for a 5% cash outflow rate	51-57B, 64B		5%	
	-	uninsured	51-57B, 64B		25%	
	-	provided by sovereigns, central banks, PSEs and MDBs	51-57B, 64B			
	-	insured, eligible for a 3% cash outflow rate	51-57B, 64B		3%	
	-	insured, eligible for a 5% cash outflow rate	51-57B, 64B		5%	
	-	uninsured	51-57B, 64B		25%	
	-	provided by banks	51-57B, 64B			
	-	insured, eligible for a 3% cash outflow rate	51-57B, 64B		3%	
	-	insured, eligible for a 5% cash outflow rate	51-57B, 64B		5%	
	-	uninsured	51-57B, 64B		25%	
	-	provided by other financial institutions and other legal entities	51-57B, 64B			
	-	insured, eligible for a 3% cash outflow rate	51-57B, 64B		3%	
	-	insured, eligible for a 5% cash outflow rate	51-57B, 64B		5%	
	-	uninsured	51-57B, 64B		25%	
	iii.	Total non-operational deposits; of which:	58-64, 64B			
	-	provided by non-financial corporates; of which:	62, 64B			
	-	Where the entire amount is fully covered by an effective deposit insurance scheme	62, 64B		20%	
	-	Where the entire amount is not fully covered by an effective deposit insurance scheme	62, 64B		40%	

	-	provided by sovereigns, central banks, PSEs and MDBs; of which:	62, 64B			
	-	Where the entire amount is fully covered by an effective deposit insurance scheme	62, 64B		20%	
	-	Where the entire amount is not fully covered by an effective deposit insurance scheme	62, 64B		40%	
	-	provided by members of the institutional networks of cooperative (or otherwise named) banks	58-59, 64B		25%	
	-	provided by banks	63, 64B		100%	
	-	provided by other financial institutions and other legal entities	63, 64B		100%	
	iv.	Unsecured debt issuance	NA		100%	
	v.	Additional balances required to be installed in central bank reserves	63		100%	
e.	Total unsecured wholesale funding cash outflows					

			Paragraph number in notice	Amount received	Market value of extended collateral	Weight	Weighted amount
f.	Transactions conducted with the Merchant Bank's domestic central bank; of which:		65-69, Appendix 7				
	i.	Backed by Level 1 HQLA; of which:	65-69, Appendix 7			0%	
	-	Transactions involving eligible HQLA, i.e. the HQLA would be unencumbered and would meet the operational requirements for HQLA if the HQLA were not used to collateralise the transactions	65-69, Appendix 7				
	ii.	Backed by Level 2A HQLA; of which:	65-69, Appendix 7			0%	
	-	Transactions involving eligible HQLA, i.e. the HQLA would be unencumbered and would meet the operational requirements for HQLA if the HQLA were not used to collateralise the transactions	65-69, Appendix 7

Notes for completion

1. A Merchant Bank must report column (1) as at the close of business of the corresponding computation day.
2. Column (2) is the amount of Liquid Assets (after haircuts) held by the Merchant Bank as computed in Section 1B Parts 2 and 3 as at maintenance day.
3. Column (3) is computed automatically.
4. Where amounts are in foreign currency, the Merchant Bank must report the Singapore Dollar equivalent in thousands of Singapore dollars (S\$ '000). Internal FX rates may be used.
5. Fill in "0" for this section if the Merchant Bank is on the LCR framework.

Computation of Qualifying Liabilities
 (Name of Merchant Bank)
 As at close of business on (day/month/year)

Section 1B Part 2

	<u>S\$'000</u>	<u>S\$'000</u>
1 All liabilities of the Merchant Bank denominated in the reporting currency due to non-bank customers		
2 All liabilities of the Merchant Bank denominated in the reporting currency due to the Authority <u>and other central banks (in jurisdictions where the Merchant Bank has a licensed branch or subsidiary)</u> within one month from the computation day LESS all claims denominated in the reporting currency by the Merchant Bank on the Authority <u>and other central banks (in jurisdictions where the Merchant Bank has a licensed branch or subsidiary)</u> maturing within one month from the computation day		(see note 1)
3 All liabilities of the Merchant Bank denominated in the reporting currency due to Relevant Entities within one month from the computation day LESS all claims denominated in the reporting currency by the Merchant Bank on Relevant Entities maturing within one month from the computation day		(see note 2)
4 15% of all undrawn commitments denominated in the reporting currency		
5 All liabilities arising from the issue of bills of exchange, other than a bill of exchange which satisfies the requirements set out in Appendix 2		
6 All liabilities of the Merchant Bank arising from— (i) the provision of any e-money issuance service as defined in section 2(1) of the Payment Services Act 2019; and (ii) the issuance of any limited purpose e-money		
QUALIFYING LIABILITIES		

Notes

- Liabilities due to the Authority or other central banks can only be netted by claims on the Authority or the same central banks respectively. Where liabilities due to the Authority less claims on the Authority results in a net asset, the Merchant Bank may deduct the net asset amount from Qualifying Liabilities. Where liabilities due to a central bank other than the Authority less claims on the same central bank results in a net asset, the Merchant Bank may only deduct the net asset from Qualifying Liabilities of the branch or subsidiary in the country or jurisdiction of that central bank.
- If this is a net asset, the Merchant Bank must not deduct the net asset amount from Qualifying Liabilities and must treat the net asset amount as zero.
- Where amounts are in foreign currency, the Merchant Bank must report the Singapore Dollar equivalent in thousands of Singapore dollars (S\$'000). Internal FX rates may be used.
- The Merchant Bank must report the figures as of the last computation day of the month.
- Fill in "0" for this section if the Merchant Bank is on the LCR framework.

Notes for completion

1. Column (1) is the actual amount of Liquid Assets, which excludes cash balances maintained by a Merchant Bank to meet the minimum cash balance requirement and assets maintained and held by a Merchant Bank to meet the asset maintenance requirement as at month end.
2. Column (2) is obtained by multiplying Column (1) by the relevant percentages.
3. Where a Liquid Asset has been included under one of the categories, the Merchant Bank must not include the same Liquid Asset under a subsequent category.
4. The Merchant Bank must report the figures as of the last computation day of the month.
5. Fill in "0" for this section if the Merchant Bank is on the LCR framework.

	- A3 to A1 / A- to A+		50%	
	- Baa2 to Baa1 / BBB to BBB+		50%	
	- P-1 / A-1 / F1		50%	
	- P-2 / A-2 / F2		50%	
	- P-3 / A-3 / F3		50%	
	Tier-2 Subtotal			
	Total Liquid Assets			

Notes for completion

- Column (1) is the actual amount of Liquid Assets, which excludes cash balances maintained by a Merchant Bank to meet the minimum cash balance requirement and assets maintained and held by a Merchant Bank to meet the asset maintenance requirement as at month end.
- Column (2) is obtained by multiplying Column (1) by the relevant percentages.
- Where a Liquid Asset has been included under one of the categories, the Merchant Bank must not include the same Liquid Asset under a subsequent category.
- The Merchant Bank must report the figures as of the last computation day of the month.
- Fill in "0" for this section if the Merchant Bank is on the LCR framework.

Notes for completion

1. A Merchant Bank must report in this Section, its future contractual cash flows by the tenor of the cash flows. A Merchant Bank must use its internal methodology for determining the cash flows for each item.
2. The maturity analysis incorporates items from both the banking and trading books. A Merchant Bank must report for an all currency basis, for SGD as well as for its non-SGD significant currencies.
3. Items must be reported on a cashflow basis, including both interest and principal amounts, together with other income relating to them. Both interest and principal amounts should be reported as per their contractual terms.
4. Where the amounts are immaterial, the Merchant Bank may agree, in consultation with the Authority, to a relaxation of the reporting requirements. The Merchant Bank must agree in advance with the Authority which flows will not be considered 'material' for the purposes of liquidity reporting. Any such arrangements must be included in the Merchant Bank's liquidity policy.

5. For products with multiple maturity dates, inflows must be assumed to occur at their latest residual contractual maturity, while outflows must be assumed to occur at their earliest residual contractual maturity.
6. All inflows and outflows must be reported gross. A Merchant Bank must not net (or offset) claims on counterparties or groups of counterparties against debts owed to those counterparties or groups of counterparties, even where a legal right of set off exists.
7. Cashflows from derivatives must be reported under 'Off-balance sheet items', segregated by the type of derivative contract.
8. Inflows must be reported as "positive" and outflows "negative".
9. Instruments payable on demand must be bucketed in the 'within 7 days' column. Items should be allocated to the 'unallocated' bucket sparingly.
10. Amounts in the original currency must be converted into Singapore Dollar equivalent using the Merchant Bank's internal exchange rates.
11. A Merchant Bank must use its internal definitions of a 'trading book' and 'non-trading book' for the purposes of this form.

Notes for completion

1. A Merchant Bank must report in this Section, the residual contractual maturity of its assets, liabilities and off-balance sheet positions based on the book value/fair value of the asset, liability or off-balance sheet items as per MAS Notice 1003 valuation methods. The value must include any interest that has been accrued up to the reporting date. Examples of reporting formats are:

- A S\$1 million, 5-year individual non-amortizing loan initiated 2 years ago (i.e. 3-year residual maturity) should be reported in the form under the "Over 2 yrs to 3 yrs" column, with value S\$1 million, on the line "Loans and advances to non-bank customers - Individual Customers".
- A S\$1 million, 5-year original and residual maturity callable corporate bond held as an asset in the Merchant Bank's trading book which is callable by the issuer after 2 years should be reported in the form under the "Over 4 yrs to 5 yrs" column, with value S\$1 million on the line "Other Corporates (trading portfolio)".
- A S\$10 million, 3-month credit line to a corporate with S\$2 million undisbursed should be reported in the form under the "Over 1 mth to 3 mths" column, with value S\$2 million on the line "Unutilised commitments and undisbursed credit facilities".
- A S\$100 million, 3-month remaining maturity interest rate swap where the Merchant Bank has a marked-to-market (MTM) asset position of S\$1 million must report the S\$1 million MTM asset under the 'Over 1 mth to 3 mths' column in the rows 'Other assets' in the 'Assets' section and 'Interest rate derivatives' in the 'Gross asset positions' section.

2. The maturity analysis incorporates items from both the banking and trading books. A Merchant Bank must report for an all currency basis, for SGD as well as for its non-SGD significant currencies.

3. Where the amounts are immaterial, the Merchant Bank may agree, in consultation with the Authority, to a relaxation of the reporting requirements. The Merchant Bank must agree in advance with the Authority which flows will not be considered 'material' for the purposes of liquidity reporting. Any such arrangements must be included in the Merchant Bank's liquidity policy.
4. For products with multiple maturity dates, the longest maturity of the product should be used.
5. All claims and liabilities must be reported gross. A Merchant Bank must not net (or offset) claims on counterparties or groups of counterparties against debts owed to those counterparties or groups of counterparties, even where a legal right of set off exists.
6. All values must be reported as "positive".
7. Instruments payable on demand must be bucketed in the 'within 7 days' column. Items should be allocated to the 'unallocated' bucket sparingly.
8. The section 'Off-balance sheet items' constitutes a supplement to the 'Assets' and 'Liabilities and shareholders' equity' section. Some items such as derivatives may be reported in both the 'Off-balance sheet items' section and 'Assets'/'Liabilities and shareholders' equity' section.
9. Amounts in the original currency must be converted into Singapore Dollar equivalent using the Merchant Bank's internal exchange rates.
10. A Merchant Bank must use its internal definitions of a 'trading book' and 'non-trading book' for the purposes of this form.

Notes for completion

1. A D-SIB Merchant Bank must report in this Section, cash flows after adjustment for the behavioural patterns it expects to occur. A D-SIB Merchant Bank must utilise its internal behavioural methodologies in bucketing the behavioural cash flows.
2. A D-SIB Merchant Bank must submit to the Authority all its behavioural assumptions used in this form.
3. A D-SIB Merchant Bank must provide empirical evidence to support the adjustments that it proposes. The empirical data must be run over an appropriate period of time.
4. A D-SIB Merchant Bank must review the behavioural assumptions periodically to ensure that these are still valid.
5. A D-SIB Merchant Bank that makes changes to its behavioural assumptions in this form must inform the Authority promptly.
6. The maturity analysis incorporates items from both the banking and trading books.
7. A D-SIB Merchant Bank must report for an all currency basis, for SGD as well as for its non-SGD significant currencies.

8. Where the amounts are immaterial, the D-SIB Merchant Bank may agree, in consultation with the Authority, to a relaxation of the reporting requirements. The D-SIB Merchant Bank must agree in advance with the Authority which flows will not be considered 'material' for the purposes of liquidity reporting. Any such arrangements must be included in the D-SIB Merchant Bank's liquidity policy.
9. Items must be reported on a cashflow basis, including both interest and principal amounts, together with other income relating to them. Both interest and principal amounts should be reported as per their contractual terms.
10. All inflows and outflows must be reported gross. A D-SIB Merchant Bank must not net (or offset) claims on counterparties or groups of counterparties against debts owed to those counterparties or groups of counterparties, even where a legal right of set off exists.
11. Inflows must be reported as "positive" and outflows "negative".
12. Instruments payable on demand must be bucketed in the 'within 7 days' column. Items should be allocated to the 'unallocated' bucket sparingly.
13. Cashflows from derivatives must be reported under 'Off-balance sheet items', segregated by the type of derivative contract.
14. Amounts in the original currency must be converted into Singapore Dollar equivalent using the D-SIB Merchant Bank's internal exchange rates.
15. A D-SIB Merchant Bank must use its internal definitions of a 'trading book' and 'non-trading book' for the purposes of this form.

Consolidated cashflows of on-balance sheet and off-balance sheet items	Over 3 yrs to 4 yrs	Over 4 yrs to 5 yrs	Over 5 yrs to 7 yrs	Over 7 yrs to 10 yrs	Over 10 yrs to 15 yrs	Over 15 yrs to 20 yrs	Over 20 yrs	Unallocated	Total
Total net inflows/(outflows) (G), (G) = (C) + (F)									
Total net cumulative inflows/(outflows)									

Notes for completion

1. A D-SIB Merchant Bank must report in this Section, cash flows after adjustment for the behavioural patterns it expects to occur. A D-SIB Merchant Bank must utilise its internal behavioural methodologies in bucketing the behavioural cash flows.
2. A D-SIB Merchant Bank must submit to the Authority all its behavioural assumptions used in this form.
3. A D-SIB Merchant Bank must provide empirical evidence to support the adjustments that it proposes. The empirical data must be run over an appropriate period of time.
4. A D-SIB Merchant Bank must review the behavioural assumptions periodically to ensure that these are still valid.
5. A D-SIB Merchant Bank that makes changes to its behavioural assumptions in this form must inform the Authority promptly.
6. The maturity analysis incorporates items from both the banking and trading books.
7. A D-SIB Merchant Bank must report for an all currency basis, for SGD as well as for its non-SGD significant currencies.

8. Where the amounts are immaterial, the D-SIB Merchant Bank may agree, in consultation with the Authority, to a relaxation of the reporting requirements. The D-SIB Merchant Bank must agree in advance with the Authority which flows will not be considered 'material' for the purposes of liquidity reporting. Any such arrangements must be included in the D-SIB Merchant Bank's liquidity policy.
9. Items must be reported on a cashflow basis, including both interest and principal amounts, together with other income relating to them. Both interest and principal amounts should be reported as per their contractual terms.
10. All inflows and outflows must be reported gross. A D-SIB Merchant Bank must not net (or offset) claims on counterparties or groups of counterparties against debts owed to those counterparties or groups of counterparties, even where a legal right of set off exists.
11. Inflows must be reported as "positive" and outflows "negative".
12. Instruments payable on demand must be bucketed in the 'within 7 days' column. Items should be allocated to the 'unallocated' bucket sparingly.
13. Cashflows from derivatives must be reported under 'Off-balance sheet items', segregated by the type of derivative contract.
14. Amounts in the original currency must be converted into Singapore Dollar equivalent using the D-SIB Merchant Bank's internal exchange rates.
15. A D-SIB Merchant Bank must use its internal definitions of a 'trading book' and 'non-trading book' for the purposes of this form.

Notes for completion

1. A Merchant Bank must submit to the Authority the details of all unencumbered assets that the Merchant Bank may use as collateral for central bank or secondary market borrowing. This should include liquid assets reported under LCR/MLA as well as assets deemed as liquid assets by the Merchant Bank's internal policies. The Merchant Bank must submit details on the amount, type and location of these available unencumbered assets, as well as the expected haircuts on these assets. The Merchant Bank must also submit details on the expected monetised value of these assets.
2. The Merchant Bank must group similar assets together for the purposes of reporting.
3. The rows must be filled in ascending order of haircuts.
4. All amounts must be reported on a gross basis.
5. Amounts in the original currency must be converted into Singapore Dollar equivalent using the Merchant Bank's internal exchange rates.

List of validation rules

Form/Section	Validation rule	Description
All sections with lists	The lists must be filled from top to bottom, with no gaps in between	
Form 1 Sections 2 to 4	The lists must be filled in descending order of size	
Form 2 Section 1 (A and B)	All fields must be positive	Negative values are not expected for cashflows
Form 2 Section 1A	Section "Level 1 HQLA", item 1(b), the amount of central bank reserves that can be drawn in times of stress must be less than or equal to the total amount of central bank reserves	Plausibility check
Form 2 Section 1A	All subsections referring to eligible HQLA in the context of the different classes of assets should be less than or equal to the total amount of that HQLA	As an example, in item (f)(i) of the section "Cash outflows", the amount received as part of a secured borrowing transaction that is backed by Level 1 HQLA should be more than or equal to the amount received as part of a secured borrowing transaction that is backed by eligible Level 1 HQLA
Form 2 Sections 2 and 4	Cashflows from assets are expected to be positive (i.e. inflows), while cashflows from liabilities are expected to be negative (i.e. outflows). While negative values in inflows are allowed and vice versa, if the number of cells with negative values in inflows or assets (and vice versa) exceed more than 50% of the cells, an error message will be triggered
