

MAS NOTICE 649

28 November 2014

Last revised on 22 January 2020

NOTICE TO BANKS

BANKING ACT, CAP 19

MINIMUM LIQUID ASSETS (“MLA”) AND LIQUIDITY COVERAGE RATIO (“LCR”)

- 1 This Notice is issued pursuant to sections 38 and 65 of the Banking Act (Cap. 19) (“the Act”) and applies to all Reporting Banks. Except where specifically mentioned in the paragraph, the requirements set out in this Notice are issued under section 38.

[MAS Notice 649 (Amendment) 2019]

- 1A In this Notice –

“Accounting Standards” has the same meaning as in section 4(1) of the Companies Act (Cap. 50);

“banking group” in relation to a Reporting Bank, refers to the Reporting Bank and its banking group entities;

“banking group entity” in relation to a Reporting Bank, means any subsidiary or any other entity which is treated as part of the Reporting Bank’s group of entities according to Accounting Standards;

“business day” means any calendar day on which a Reporting Bank carries on business;

“country-level group” in relation to a Reporting Bank, refers to a group comprising any combination of the Reporting Bank and any other bank in Singapore or any merchant bank that is a related corporation of the Reporting Bank approved by the Authority to be part of the group;

“Current Account” has the same meaning as in MAS Notice 758;

“Custody Cash Account” has the same meaning as in MAS Notice 758;

“holding company” has the same meaning as in section 5 of the Companies Act;

“internationally active bank” means a Reporting Bank incorporated in Singapore which has been notified by the Authority that the Authority considers it to be internationally active, taking into consideration whether the Reporting Bank has one or more banking group entity outside Singapore which is approved, licensed, registered or otherwise regulated by a bank regulatory agency in a foreign jurisdiction to carry on banking business as defined in the Act, and whether the banking group entity’s operations are significant in that foreign jurisdiction;

“Public sector entity” or “PSE” means –

- a) a regional government or local authority able to exercise one or more functions of the central government at a regional or local level;
- b) an administrative body or non-commercial undertaking responsible to, or owned by, a central government, regional government or local authority, which performs regulatory or non-commercial functions;
- c) a statutory board in Singapore (other than the Authority); or
- d) a town council in Singapore established pursuant to the Town Councils Act (Cap. 329A);

“Reporting Bank” means a bank in Singapore; and

“significant currency” in relation to a Reporting Bank, means a currency where the aggregate liabilities of the Reporting Bank denominated in that currency as at the end of the month amounts to 5% or more of the Reporting Bank’s total liabilities.

[MAS Notice 649 (Amendment) 2019]

- 2 A Reporting Bank shall only need to comply with Part II – LCR of this Notice if it is an internationally active bank or it has been notified by the Authority that it is a domestic systemically important bank¹ (“D-SIB”).

[MAS Notice 649 (Amendment) 2019]

- 3 A Reporting Bank which does not fall within paragraph 2 above may, upon giving prior written notice of at least one month to the Authority, choose to comply with either Part I – MLA or Part II – LCR of this Notice, and the requirements in the relevant part would

¹ More information on the D-SIB framework can be found at <https://www.mas.gov.sg/-/media/MAS/News-and-Publications/Monographs-and-Information-Papers/Monograph--MAS-Framework-for-Impact-and-Risk-Assessment.pdf>.

[MAS Notice 649 (Amendment) 2019]

apply accordingly. While a Reporting Bank which has chosen to comply with Part I – MLA of this Notice may choose to comply with Part II – LCR of this Notice subsequently upon giving the requisite notice to the Authority, a Reporting Bank which has chosen to comply with Part II – LCR of this Notice will have to write in to the Authority for approval to comply with Part I – MLA of this Notice subsequently. The Authority will not ordinarily grant such an approval except in exceptional circumstances.

[MAS Notice 649 (Amendment) 2019]

- 4 A Reporting Bank which has to comply with Part II of this Notice may, with the Authority’s approval comply with the requirements set out in this Notice on a country-level group basis. The Authority will subject the Reporting Bank and the entities which are in the country-level group to an assessment before granting any approval for the Reporting Bank to comply with this Notice on a country-level group basis.

[MAS Notice 649 (Amendment) 2019]

- 5 The expressions used in this Notice shall, except where expressly defined in this Notice or where the context otherwise requires, have the same meanings as in the Act.

- 5A A Reporting Bank should ensure its liquidity risk management is sound and commensurate with the size, nature and complexity of its activities, including meeting the guidelines in Appendix 8.

[MAS Notice 649 (Amendment) 2016]

[MAS Notice 649 (Amendment) 2019]

Definitions

6 In Part I of this Notice –

“bills of exchange” has the same meaning as in section 3 of the Bills of Exchange Act (Cap. 23);

[Deleted by MAS Notice 649 (Amendment) 2019]

“computation day” means the business day on which a Reporting Bank computes the minimum amount of liquid assets that the Reporting Bank has to maintain on the relevant maintenance day;

[MAS Notice 649 (Amendment) 2019]

“intragroup banking entities” in relation to a Reporting Bank, means –

- a) the Reporting Bank’s head office;
- b) branches of the Reporting Bank’s head office; and
- c) subsidiaries of the Reporting Bank’s head office that are banks (whether licensed in Singapore or not);

[MAS Notice 649 (Amendment) 2019]

“limited purpose e-money” has the same meaning as given by Part 3 of the First Schedule to the Payment Services Act 2019 (Act 2 of 2019);

[MAS Notice 649 (Amendment) 2020]

“maintenance day”, in relation to any computation day, means the day occurring two business days from that computation day;

“MAS Bills” means any debt securities issued by the Monetary Authority of Singapore under the Monetary Authority of Singapore Act (Cap. 186);

“Qualifying Liabilities” means the aggregate of –

- a) all liabilities of a Reporting Bank² denominated in the relevant currency or currencies, as the case may be, due to non-bank customers, computed on a gross basis;
- b) all liabilities of a Reporting Bank denominated in the relevant currency or currencies, as the case may be, due to the Authority within one month from the computation day, computed on a net basis (i.e. after the deduction of all claims denominated in the relevant currency or currencies, as the case may be, by the Reporting Bank on the Authority maturing within one month from the computation day), and where this is a net asset, the net asset amount may be deducted from Qualifying Liabilities;
- c) all liabilities of a Reporting Bank denominated in the relevant currency or currencies as the case may be, due to other banks (whether licensed in Singapore or not, including intragroup banking entities) within one month from the computation day, computed on a net basis (i.e. after the deduction of all claims denominated in the relevant currency or currencies, as the case may be, by the Reporting Bank on the other banks maturing within one month from the computation day), and where this is a net asset, the net asset amount shall not be deducted from Qualifying Liabilities and shall be treated as zero;
- d) 15% of all undrawn commitments denominated in the relevant currency or currencies, as the case may be³;
- e) all liabilities arising from the issue of bills of exchange, other than a bill of exchange which satisfies the requirements set out in Appendix 1; and
- f) all liabilities of a Reporting Bank arising from –
 - i) the provision of any e-money issuance service as defined in section 2(1) of the Payment Services Act 2019 (Act 2 of 2019); and
 - ii) the issuance of any limited purpose e-money;

but does not include any liability of the Reporting Bank arising from –

² For avoidance of doubt, this excludes any contingent liability of the Reporting Bank.

[MAS Notice 649 (Amendment) 2019]

³ For the purposes of the Singapore Dollar MLA requirement, where the undrawn commitment is a multi-currency facility involving the Singapore Dollars as a component currency, a Reporting Bank shall include the entire facility amount as its undrawn commitment for its computation of its Singapore Dollar Qualifying Liabilities. However, if there is a sub-limit for the Singapore Dollars in the facility, the Reporting Bank may use the sub-limit amount for its computation of its Singapore Dollar Qualifying Liabilities.

[MAS Notice 649 (Amendment) 2019]

- a) any funds received through repurchase agreements of Singapore Government Securities or MAS Bills;
- b) any funds received through currency, interest rate and foreign exchange swaps;
- c) any issue of subordinated debt, the terms of which comply with the criteria for the treatment of the liabilities as capital in the computation of the Reporting Bank's capital adequacy ratio under section 10 of the Act, whether or not the entire amount of such liabilities is in fact treated in such computation as capital; and
- d) any funds raised through the discounting of any bill of exchange which satisfies the requirements set out in Appendix 1, with other banks or finance companies in Singapore;

[MAS Notice 649 (Amendment) 2016]

[MAS Notice 649 (Amendment) 2019]

[MAS Notice 649 (Amendment) 2020]

[Deleted by MAS Notice 649 (Amendment) 2019]

“Singapore Government Securities” means any security or equivalent instrument issued under the Government Securities Act (Cap. 121A) and any Treasury bill or equivalent instrument issued under the Local Treasury Bills Act (Cap. 167);

“Tier-1 liquid asset” means –

- a) for the purposes of the Singapore Dollar MLA requirement, the assets listed in paragraphs 7(a), 7(aa), 7(b), 7(c) and 7(d) of this Notice, other than cash balances maintained for the purposes of section 39 of the Act and assets maintained and held for the purposes of section 40 of the Act; or
- b) for the purposes of the all currency MLA requirement, the assets listed in paragraphs 7(a), 7(aa), 7(b), 7(c), 7(d) and 7(e) of this Notice, other than cash balances maintained for the purposes of section 39 of the Act and assets maintained and held for the purposes of section 40 of the Act;

[MAS Notice 649 (Amendment) 2019]

“undrawn commitment” means any arrangement of a Reporting Bank with any person (including the Reporting Bank's head office and branches of the Reporting Bank's head office) which would pose liquidity risk to the Reporting Bank in the event the person or a third party in whose favour the arrangement is made, utilises or calls upon the commitment, such as any unutilised portion of a guarantee, any standby letter of credit, any warranty, any standby credit facility, any forward asset purchase, any underwriting

arrangements, any credit protection sold by the Reporting Bank and any liquidity facilities granted by the Reporting Bank, but does not include any arrangement where the drawdown or utilisation is subject to the approval of the Reporting Bank at the point of drawdown, and the Reporting Bank has the unconditional right to refuse drawdown.

[MAS Notice 649 (Amendment) 2019]

Assets approved as “liquid assets”

7 For the purposes of section 38(9) of the Act, “liquid assets” are –

[MAS Notice 649 (Amendment) 2019]

a) currency notes and coins of Singapore which are legal tender in Singapore, or foreign currency;

[MAS Notice 649 (Amendment) 2019]

aa) cash balances in a Reporting Bank’s Current Account and Custody Cash Account maintained with the Authority^{3A};

[MAS Notice 649 (Amendment) 2019]

b) any Singapore Government Securities (“SGS”) and any SGS held under a reverse repurchase agreement;

c) any sukuk issued by Singapore Sukuk Pte Ltd;

d) any MAS Bills and any MAS Bills held under a reverse repurchase agreement;

e) any debt securities or sukuk⁴ denominated in the relevant currency or currencies, as the case may be, not being a sukuk which is a liquid asset by virtue of subparagraph (c), that is issued by a sovereign or a central bank and assigned a credit rating of at least AA- by Fitch, Inc, or Standard and Poor’s Corporation or a credit rating of at least Aa3 by Moody’s Investor Services, and includes any such debt securities or sukuk held under a reverse repurchase agreement;

[MAS Notice 649 (Amendment) 2016]

^{3A} For the avoidance of doubt, this does not include overnight deposits or term deposits placed with the Authority.
[MAS Notice 649 (Amendment) 2019]

⁴ For the avoidance of doubt, only sukuk which demonstrates characteristics similar to a debt security are approved by the Authority as liquid assets.

- f) any debt securities or sukuk denominated in the relevant currency or currencies, not being a sukuk which is a liquid asset by virtue of sub-paragraph (c), and not being a debt security or sukuk defined in sub-paragraph (e), that are –
- i) issued by a statutory board in Singapore, with a minimum issue size of SGD 200 million, at 90% of its value;
 - ii) with a minimum issue size of SGD 200 million which satisfies either the long term issue or short term issue credit ratings and at the relevant value set out in Appendix 3;
 - iii) issued by a sovereign, a supranational (i.e. an entity that is both of a governmental and international character), or a sovereign-guaranteed company (where the sovereign or government is not the Singapore Government) and the debt securities or sukuk are assigned a credit rating of AAA by Fitch, Inc, or Standard and Poor’s Corporation or a credit rating of Aaa by Moody’s Investor Services; or
 - iv) issued by a AAA-rated PSE and accorded a risk weight of 0% under paragraph 7.3.17 of MAS Notice 637,

and includes any such debt securities or sukuk held under a reverse repurchase agreement⁶; or

[MAS Notice 649 (Amendment) 2019]

- g) any bill of exchange which satisfies the requirements set out in Appendix 2;

provided always that –

- i) the asset shall be free from any prior encumbrances;
- ii) where the asset is a debt security or sukuk, it shall not be a convertible debt security or sukuk and if a Reporting Bank holds more than 20% of the total market of a particular issue of debt securities or sukuk (including issues from different tranches), the Reporting Bank shall only treat as liquid assets, 50% of the value of those debt securities or sukuk; and

[MAS Notice 649 (Amendment) 2019]

⁵ [Deleted by MAS Notice 649 (Amendment) 2019]

⁶ For the avoidance of doubt, where an issue of such debt securities or sukuk is partially redeemed such that the outstanding issue size falls below SGD200m, those debt securities or sukuk would no longer be approved as liquid assets.

- iii) the asset does not arise or result from any contractual or other arrangements with, or investments in, a counterparty related to the Reporting Bank⁷.

[MAS Notice 649 (Amendment) 2019]

Valuation of Liquid Assets

- 8 When computing the minimum amount of liquid assets to be held by it on any maintenance day, a Reporting Bank shall use –
- a) in the case of its bills of exchange, the book value of those bills of exchange; and
 - b) in the case of its liquid assets (other than bills of exchange), the marked-to-market value of those liquid assets as of the computation day to which that maintenance day relates.

[MAS Notice 649 (Amendment) 2016]

MLA Framework

- 9 Every Reporting Bank shall hold, at all times –
- a) liquid assets denominated in any currency amounting to no less than 16% of the value of its Qualifying Liabilities denominated in all currencies (“all currency MLA requirement”); and
 - b) liquid assets denominated in Singapore Dollars amounting to no less than 16% of the value of its Qualifying Liabilities denominated in Singapore Dollars (“Singapore Dollar MLA requirement”).

[MAS Notice 649 (Amendment) 2019]

- 10 Every business day shall be a computation day. On a maintenance day, a Reporting Bank shall hold the Singapore Dollar MLA requirement and the all currency MLA requirement, respectively, that was computed on the relevant computation day. Where a day is not a business day, a Reporting Bank shall hold for that day, the Singapore Dollar MLA requirement and the all currency MLA requirement of the immediately preceding

⁷ A counterparty related to a Reporting Bank includes a related corporation or associate of the Reporting Bank, an entity which is treated as part of the Reporting Bank’s group of entities according to Accounting Standards and any subsidiary or associate of any holding company of the Reporting Bank. “[A]ssociate” has the same meaning as in the Fifth Schedule of the Act, save that any reference to “substantial shareholder” shall be replaced by reference to “corporation”.

[MAS Notice 649 (Amendment) 2019]

maintenance day which is a business day. Appendix 4 sets out the computation and maintenance schedules for a Reporting Bank determining its MLA requirements.

[MAS Notice 649 (Amendment) 2019]

Minimum Amount of Tier-1 assets

- 11 A Reporting Bank shall hold, at all times, at least 50% of its liquid assets held for the purposes of complying with the all currency MLA requirement and the Singapore Dollar MLA requirement, respectively, in Tier-1 liquid assets.

[MAS Notice 649 (Amendment) 2019]

Utilisation of liquid assets

- 12 A Reporting Bank shall notify the Authority in writing of its intent to utilise its MLA in a liquidity stress situation prior to the utilisation. The Reporting Bank shall ensure that the notification is signed by its chief executive, chief financial officer or any equivalent senior management.

[MAS Notice 649 (Amendment) 2019]

- 13 A Reporting Bank shall –

- a) provide its justification for the utilisation of MLA;
- b) set out the cause of the liquidity stress situation and to provide supporting documents, where available; and
- c) detail the steps which it has taken and is going to take to resolve the liquidity stress situation,

to the Authority within one business day after the utilisation of its liquid assets.

[MAS Notice 649 (Amendment) 2019]

- 14 A Reporting Bank shall also keep the Authority informed of material developments during the liquidity stress situation.

[MAS Notice 649 (Amendment) 2019]

Submission of liquidity returns

- 15 A Reporting Bank shall prepare the appropriate liquidity returns set out at Appendix 5 as at the last calendar day of each month.

[MAS Notice 649 (Amendment) 2019]

- 16 A Reporting Bank shall submit all returns prepared in accordance with paragraph 15 to the Authority electronically through MASNET not later than 10 calendar days after the last day of each month.

[MAS Notice 649 (Amendment) 2019]

PART II – LCR

Definitions

17 In Part II of this Notice –

“30-day LCR horizon” means the 30-day period following the day on which the LCR is computed;

[Deleted by MAS Notice 649 (Amendment) 2019]

[Deleted by MAS Notice 649 (Amendment) 2019]

“cash management activity” in relation to a Reporting Bank, means the remittance of payments, collection and aggregation of funds, payroll administration, and control over the disbursement of funds in the context of a relationship where the Reporting Bank provides products and services to a customer to manage his or its cash flows, assets and liabilities, and conducts financial transactions necessary to the customer’s affairs or operations;

[MAS Notice 649 (Amendment) 2019]

“clearing activity” in relation to a Reporting Bank, means the transmission, reconciliation and confirmation of payment orders; daylight overdraft, overnight financing and maintenance of post-settlement balances; and determination of intra-day and final settlement positions in the context of a relationship where the Reporting Bank provides a service that enables customers to transfer funds (or securities) through direct participants in domestic settlement systems to the final recipient;

[MAS Notice 649 (Amendment) 2019]

[Deleted by MAS Notice 649 (Amendment) 2019]

“custody activity” in relation to a Reporting Bank, means the settlement of securities transactions, the transfer of contractual payments, the processing of collateral, the provision of custody related cash management services, the receipt of dividends and other income, client subscriptions and redemptions, asset and corporate trust servicing, treasury, escrow, funds transfer, stock transfer and agency services, including payment and settlement services (excluding correspondent banking), and depository receipts; in the context of a relationship where the Reporting Bank provides services for the safekeeping, reporting, processing of assets or the facilitation of the operational and administrative elements of related activities on behalf of customers in the process of their transacting and retaining of financial assets;

[MAS Notice 649 (Amendment) 2019]

“external credit assessment institution” or “ECAI” has the same meaning as in MAS Notice 637;

[MAS Notice 649 (Amendment) 2019]

“high quality liquid assets” or “HQLA” means any asset –

- a) approved under section 38(9) as “liquid assets” as listed in paragraph 21, which satisfies the requirements set out in paragraph 22 of this Notice to be included as high quality liquid assets for the purposes of computing the LCR; and
- b) which is available on a Reporting Bank’s balance sheet as at the end of the day immediately preceding the 30-day LCR horizon;

[MAS Notice 649 (Amendment) 2019]

“insurance subsidiary” means –

- a) a subsidiary that carries on insurance business as an insurer;
- b) a subsidiary that is –
 - i) a holding company of the subsidiary referred to in sub-paragraph (a); and
 - ii) subject to specific capital adequacy requirements set out in a direction issued by the Authority under section 28 of the Monetary Authority of Singapore Act; or
- c) a subsidiary of the holding company referred to in sub-paragraph (b) that is included by the holding company in its computation of specific capital adequacy requirements set out in a direction issued by the Authority under section 28 of the Monetary Authority of Singapore Act;

[MAS Notice 649 (Amendment) 2019]

“Level 1 HQLA” means any HQLA listed in paragraph 21(a), 21(b), 21(c), 21(d), 21(g), 21(h) or 21(n) of this Notice which satisfies the requirements set out in paragraph 22 of this Notice;

“Level 2A HQLA” means any HQLA listed in paragraph 21(e), 21(i) or 21(o) of this Notice which satisfies the requirements set out in paragraph 22 of this Notice;

“Level 2B(I) HQLA” means any HQLA listed in paragraph 21(j) or 21(o) of this Notice which satisfies the requirements set out in paragraph 22 of this Notice;

“Level 2B(II) HQLA” means any HQLA listed in paragraph 21(f), 21(k), 21(l), 21(m) and 21(o) of this Notice which satisfies the requirements set out in paragraph 22 of this Notice;

“Liquidity Coverage Ratio” or “LCR” refers to a ratio which is computed at the end of each day as follows:

$$\text{LCR} = \frac{\text{HQLA}}{\text{Total net cash outflows}} \times 100\%$$

“parent bank” has the same meaning as in paragraph 1 of the Fifth Schedule of the Act;

[MAS Notice 649 (Amendment) 2019]

“recognised ECAI” has the same meaning as in MAS Notice 637; and

[MAS Notice 649 (Amendment) 2019]

“small business customer” means any customer that enters into a transaction with a Reporting Bank with total exposures of less than S\$2 million (on a consolidated basis where applicable) and are managed by the Reporting Bank as retail exposures⁸.

[MAS Notice 649 (Amendment) 2019]

[Deleted by MAS Notice 649 (Amendment) 2019]

⁸ “Small business customers” are defined in line with the definition of loans extended to small businesses in footnote 124 of the MAS Notice 637 that are managed as retail exposures and are generally considered as having similar liquidity risk characteristics to retail accounts provided the total aggregated funding raised from one small business customer is less than S\$2 million (on a consolidated basis where applicable). Where a Reporting Bank does not have any exposure to a small business customer that would enable it to use the definition under footnote 124 of the MAS Notice 637, the Reporting Bank may include such a deposit in this category provided that the total aggregate funding raised from the customer is less than S\$2 million (on a consolidated basis where applicable) and the deposit is managed as a retail deposit. This means that the Reporting Bank treats such deposits in its internal risk management systems consistently over time and in the same manner as other retail deposits, and that the deposits are not individually managed in a way comparable to larger corporate deposits.

[MAS Notice 649 (Amendment) 2019]

LCR Framework

18 A D-SIB that is incorporated in Singapore and whose head office or parent bank is incorporated in Singapore shall maintain at all times, a Singapore Dollar LCR of at least 100% and an all currency LCR of at least 60% by 1 January 2015, with the all currency LCR required increasing by 10% each year to 100% by 2019.

[MAS Notice 649 (Amendment) 2019]

18A The implementation timeline for the requirements on all currency LCR for a D-SIB that is incorporated in Singapore and whose head office or parent bank is incorporated in Singapore is as set out in Table 1 –

Table 1: Implementation timetable for requirements on all currency LCR for a D-SIB that is incorporated in Singapore and whose head office or parent bank is incorporated in Singapore

From	1 January 2015	1 January 2016	1 January 2017	1 January 2018	1 January 2019
Minimum LCR required	60%	70%	80%	90%	100%

[MAS Notice 649 (Amendment) 2019]

18B A Reporting Bank that is not referred to in paragraph 18 and is an internationally active bank shall maintain at all times, a Singapore Dollar LCR of at least 100% and an all currency LCR of at least 100%.

[MAS Notice 649 (Amendment) 2019]

18C Pursuant to section 65 of the Act, a Reporting Bank referred to in paragraph 18 or 18B shall comply with the requirements on Singapore Dollar LCR and all currency LCR on a consolidated (“Group”) level, which consolidates the assets and liabilities of all its banking group entities, other than those of the following banking group entities (“excluded entities”), if any:

- a) an insurance subsidiary;
- b) any other entity, where such non-consolidation of assets and liabilities of the entity is expressly permitted under the Accounting Standards. For the avoidance of doubt, the exemption in paragraph 4(a) of Singapore Financial Reporting Standards 110

(“SFRS 110”) Consolidated Financial Statements^{8A} shall not apply for the purposes of complying with this paragraph.

[MAS Notice 649 (Amendment) 2019]

18D Pursuant to paragraph 18C and for the purposes of Part II of this Notice (other than paragraph 18C), all assets, liabilities, transactions, exposures or operations of a banking group entity of a Reporting Bank referred to in paragraph 18 or 18B (except excluded entities) shall be deemed to be that of the Reporting Bank.

[MAS Notice 649 (Amendment) 2019]

19 Any other Reporting Bank that is not referred to in paragraph 18 or 18B and has been notified by the Authority that it is a D-SIB, or a Reporting Bank that elects to comply with the LCR framework, shall maintain at all times, a Singapore Dollar LCR of at least 100% and an all currency LCR of at least –

- a) 100% in the case where the Reporting Bank’s head office or parent bank is incorporated in Singapore;
- b) 50% in the case where the Reporting Bank’s head office or parent bank is incorporated outside Singapore.

[MAS Notice 649 (Amendment) 2019]

20 A Reporting Bank shall only use liquid assets denominated in Singapore Dollars to fulfil the requirements on Singapore Dollar LCR. For avoidance of doubt, the total net cash outflows for the Singapore Dollar LCR shall only include total net cash outflows denominated in Singapore Dollars.

[MAS Notice 649 (Amendment) 2019]

Assets approved as “Liquid Assets”

21 For the purposes of section 38(9) of the Act, “liquid assets” are –

[MAS Notice 649 (Amendment) 2019]

- a) currency notes and coins of Singapore which are legal tender in Singapore, or foreign currency;

[MAS Notice 649 (Amendment) 2019]

^{8A} Paragraph 4(a) of SFRS 110 exempts a parent from presenting consolidated financial statements, subject to certain conditions.

[MAS Notice 649 (Amendment) 2019]

- b) reserves held with the Authority and other central banks, which include –
 - i) cash balances in a Reporting Bank’s Current Account and Custody Cash Account maintained with the Authority;
 - ii) a Reporting Bank’s overnight deposits with a central bank; and
 - iii) a Reporting Bank’s term deposits with a central bank where –
 - (A) the Reporting Bank has a contractual agreement with the central bank to repay such deposits on notice from the Reporting Bank; or
 - (B) the deposits constitute a loan against which the Reporting Bank may borrow on a term basis or on an overnight but automatically renewable basis⁹,

to the extent that the Authority’s and the central banks’ policies allow them to be drawn down in times of stress;

[MAS Notice 649 (Amendment) 2019]

- c) any sukuk issued by Singapore Sukuk Pte Ltd;
- d) any marketable security representing a claim on or guaranteed by a sovereign, a central bank, a PSE, the Bank for International Settlements, the International Monetary Fund, the European Central Bank, the European Community or a multilateral development bank, which satisfies the following conditions:
 - i) it is assigned a 0% risk-weight under Table 7-1 of MAS Notice 637 or paragraphs 7.3.17 to 7.3.20 of MAS Notice 637;
 - ii) it is traded in large, deep and active repurchase agreement (“repo”) or cash markets characterised by a low level of concentration;
 - iii) it has a proven record as a reliable source of liquidity in the markets (repo or sale) even during stressed market conditions;

⁹ Other term deposits with central banks are not eligible as liquid assets; however, if the term expires within 30 days, the term deposit could be considered as an inflow per paragraph 100.

[MAS Notice 649 (Amendment) 2019]

iv) it is not an obligation of a financial institution or any of its related corporations;

[MAS Notice 649 (Amendment) 2019]

e) any marketable security representing a claim on or guaranteed by, a sovereign, a central bank, a PSE or a multilateral development bank, which satisfies the following conditions:

i) it is assigned a 20% risk weight under paragraphs 7.3.13 to 7.3.20 of MAS Notice 637;

ii) it is traded in large, deep and active repo or cash markets characterised by a low level of concentration;

iii) it has a proven record as a reliable source of liquidity in the markets (repo or sale) even during stressed market conditions, i.e. a maximum price decline or increase in haircut not exceeding 10 percentage points over a 30-day period of significant liquidity stress;

iv) it is not an obligation of a financial institution or any of its related corporations;

[MAS Notice 649 (Amendment) 2019]

f) any marketable security representing a claim on or guaranteed by a sovereign, a central bank or a PSE, which satisfies the following conditions:

i) it has a long-term credit rating from a recognised ECAI of at least BBB- or in the absence of a long term rating, a short-term rating equivalent in quality to the long-term rating; or does not have a credit assessment by a recognised ECAI and is internally rated as having a probability of default (“PD”) corresponding to a credit rating of at least BBB-;

ii) it is traded in large, deep and active repo or cash markets characterised by a low level of concentration;

iii) it has a proven record as a reliable source of liquidity in the markets (repo or sale) even during stressed market conditions, i.e. a maximum price decline or increase in haircut not exceeding 20 percentage points over a 30-day period of significant liquidity stress;

iv) it is not an obligation of a financial institution or any of its related corporations;

[MAS Notice 649 (Amendment) 2016]

[MAS Notice 649 (Amendment) 2019]

g) where a sovereign has a non-0% risk weight as determined in accordance with Table 7-1 of MAS Notice 637, any sovereign or central bank debt security issued in domestic currencies by the sovereign or its central bank –

i) if the sovereign or central bank is from a Reporting Bank's home country;
or

ii) if the sovereign or central bank is from a host jurisdiction where a Reporting Bank has a branch or subsidiary and the Reporting Bank or its subsidiary takes liquidity risk in that jurisdiction;

[MAS Notice 649 (Amendment) 2019]

h) where the sovereign has a non-0% risk weight as determined in accordance with Table 7-1 of MAS Notice 637, any sovereign or central bank debt security issued in foreign currencies by the sovereign or its central bank –

i) if the sovereign or central bank is from a Reporting Bank's home country;
or

ii) if the sovereign or central bank is from a host jurisdiction where a Reporting Bank has a branch or subsidiary and the Reporting Bank or its subsidiary takes liquidity risk in that jurisdiction,

up to the amount of a Reporting Bank's stressed net cash outflows in that specific foreign currency arising from the operations of the Reporting Bank or its subsidiary in the jurisdiction where the Reporting Bank has a branch or subsidiary;

[MAS Notice 649 (Amendment) 2019]

i) any corporate debt security, covered bond or sukuk, which satisfies the following conditions:

i) in the case of a corporate debt security or sukuk, it is not a complex structured product or a subordinated debt security, and it is not issued by a financial institution or any of its related corporations;

- ii) in the case of a covered bond, it is not issued by the Reporting Bank or any of its related corporations;
- iii) it has a long-term credit rating from a recognised ECAI of at least AA- or in the absence of a long term rating, a short-term rating equivalent in quality to the long-term rating^{9A}; or does not have a credit assessment by a recognised ECAI but is internally rated as having a PD corresponding to a credit rating of at least AA-;
- iv) it is traded in large, deep and active repo or cash markets characterised by a low level of concentration;
- v) it has a proven record as a reliable source of liquidity in the markets (repo or sale) even during stressed market conditions, i.e. a maximum price decline or increase in haircut not exceeding 10 percentage points over a 30-day period of significant liquidity stress;

[MAS Notice 649 (Amendment) 2016]

[MAS Notice 649 (Amendment) 2019]

- j) any corporate debt security or sukuk, which satisfies all of the following conditions:
 - i) it is not a complex structured product or a subordinated debt security;
 - ii) it is not issued by a financial institution or any of its related corporations;
 - iii) it has a long-term credit rating from a recognised ECAI of at least A- or in the absence of a long term rating, a short-term rating equivalent in quality to the long-term rating; or does not have a credit assessment by a recognised ECAI and is internally rated as having a PD corresponding to a credit rating of at least A-;
 - iv) it is traded in large, deep and active repo or cash markets characterised by a low level of concentration;

^{9A} In the event of split ratings, the applicable rating shall be determined according to the method used in paragraph 7.3.4 of MAS Notice 637. Local rating scales (rather than international ratings) of a recognised ECAI can be recognised if corporate debt securities or covered bonds are held by a Reporting Bank for local currency liquidity needs arising from its operations in that local jurisdiction. This also applies to paragraphs 21(j) and 21(k).

[MAS Notice 649 (Amendment) 2016]

[MAS Notice 649 (Amendment) 2019]

- v) it has a proven record as a reliable source of liquidity in the markets (repo or sale) even during stressed market conditions, i.e. a maximum price decline or increase in haircut not exceeding 20 percentage points over a 30-day period of significant liquidity stress;

[MAS Notice 649 (Amendment) 2019]

- k) any corporate debt security or sukuk, which satisfies all of the following conditions:

- i) it is not a complex structured product or a subordinated debt security;
- ii) it is not issued by a financial institution or any of its related corporations;
- iii) it has a long-term credit rating from a recognised ECAI between BBB+ and BBB- or in the absence of a long term rating, a short-term rating equivalent in quality to the long-term rating; or does not have a credit assessment by a recognised ECAI and is internally rated as having a PD corresponding to a credit rating of between BBB+ and BBB-;
- iv) it is traded in large, deep and active repo or cash markets characterised by a low level of concentration;
- v) it has a proven record as a reliable source of liquidity in the markets (repo or sale) even during stressed market conditions, i.e. a maximum price decline or increase in haircut not exceeding 20 percentage points over a 30-day period of significant liquidity stress;

[MAS Notice 649 (Amendment) 2019]

- l) any residential mortgage-backed security (“RMBS”) which satisfies the following requirements:

- i) it is not issued by, and the underlying assets have not been originated by, the Reporting Bank or any of its related corporations;
- ii) it has a long-term credit rating from a recognised ECAI of AA or higher, or in the absence of a long term rating, a short-term rating equivalent in quality to the long-term rating;
- iii) it is traded in large, deep and active repo or cash markets characterised by a low level of concentration;
- iv) it has a proven record as a reliable source of liquidity in the markets (repo or sale even during stressed market conditions, i.e. a maximum

price decline or increase in haircut not exceeding 20 percentage points over a 30-day period of significant liquidity stress;

- v) the underlying asset pool is restricted to residential mortgages and does not contain structured products;
- vi) the underlying residential mortgages are “full recourse” loans (i.e. in the case of foreclosure the mortgage owner remains liable for any shortfall in sales proceeds from the property) and have a maximum weighted average¹⁰ loan-to-value ratio (LTV) of 80% at the time of issuance of the RMBS;
- vii) the securitisations are subject to risk retention laws and regulations which require issuers to retain an interest in the assets they securitise;

[MAS Notice 649 (Amendment) 2016]

[MAS Notice 649 (Amendment) 2019]

m) any ordinary shares, excluding preference shares and treasury shares, which satisfy all of the following requirements:

- i) the shares are not issued by a financial institution or any of its related corporations;
- ii) the shares are exchange traded and centrally cleared;
- iii) the shares are a constituent of –

(A) the FTSE Straits Times Index (“STI”) or the MSCI Singapore Free Index;

(B) if the stock is held in a jurisdiction outside of Singapore where a Reporting Bank has a branch or subsidiary and the Reporting Bank or its subsidiary takes liquidity risk in that jurisdiction, an index that the banking supervisor of that jurisdiction recognises for purposes of including the equities as Level 2B HQLA under the applicable regulatory policy; or

¹⁰ Weighted average LTV is computed as follows:

$$\text{weighted average LTV} = \frac{\text{mortgage amount}_1 \times \text{LTV}_1 + \text{mortgage amount}_2 \times \text{LTV}_2 + \dots + \text{mortgage amount}_n \times \text{LTV}_n}{\text{mortgage amount}_1 + \text{mortgage amount}_2 + \dots + \text{mortgage amount}_n}$$

Where n is the number of residential mortgages in the RMBS.

- (C) any other index for which a Reporting Bank can demonstrate to the satisfaction of the Authority that the stock is as liquid and readily marketable as equities traded on the indices in sub-paragraph (m)(iii)(A);
- iv) denominated in the domestic currency of a Reporting Bank's home jurisdiction or in the currency of the jurisdiction where a Reporting Bank has a branch or subsidiary and the Reporting Bank or its subsidiary takes liquidity risk in that jurisdiction;
- v) traded in large, deep and active repo or cash markets characterised by a low level of concentration;
- vi) have a proven record as a reliable source of liquidity in the markets (repo or sale) even during stressed market conditions, i.e. a maximum price decline or increase in haircut not exceeding 40 percentage points over a 30-day period of significant liquidity stress;

[MAS Notice 649 (Amendment) 2019]

- n) any liquid assets recognised as alternative liquid assets in jurisdictions that implement the Alternative Liquidity Approaches¹¹ and which the banking supervisor of that jurisdiction recognises for purposes of including the liquid assets as Level 1 HQLA, subject to the requirements specified in paragraph 111;

[MAS Notice 649 (Amendment) 2019]

- o) any liquid assets recognised as alternative liquid assets in jurisdictions that implement the Alternative Liquidity Approaches¹¹ and which the banking supervisor of that jurisdiction recognises for purposes of including the liquid assets as Level 2 HQLA, subject to the requirements specified in paragraph 111.

[MAS Notice 649 (Amendment) 2019]

Operational requirements

- 22 A Reporting Bank shall treat a liquid asset as HQLA only if the liquid asset complies with the following operational requirements:

[MAS Notice 649 (Amendment) 2019]

¹¹ Please refer to paragraphs 55-67 of the "Basel III: The Liquidity Coverage Ratio and liquidity risk monitoring Tools".

- a) the liquid asset is unencumbered¹² and shall not be pledged whether explicitly or implicitly, to secure, collateralise or credit-enhance any transaction, nor be designated to cover operational costs (such as rents and salaries);
- b) the liquid asset is to be under the control of the function charged with managing the liquidity of the Reporting Bank (e.g. the treasurer). In this regard, an asset would only be considered to be under the control of the function if the asset is maintained in a separate pool managed by the function with the sole intent for use as a source of contingent funds or if the Reporting Bank is able to demonstrate that the function has the authority and legal and operational capability to monetise the asset at any point in the 30-day LCR horizon and that the proceeds of doing so are available to the function throughout the 30-day LCR horizon without directly conflicting with a stated business or risk management strategy^{12A};

[MAS Notice 649 (Amendment) 2016]

[MAS Notice 649 (Amendment) 2019]

- c) any liquid asset received in reverse repo and securities financing transactions and which has not been rehypothecated and is legally and contractually available for the Reporting Bank's use (i.e. where the Reporting Bank can sell or deal with such assets);

[MAS Notice 649 (Amendment) 2019]

- d) any liquid asset which has been deposited with, or pledged to, a central bank or a PSE, but which has not been used to generate liquidity, may be included as HQLA;

[MAS Notice 649 (Amendment) 2019]

¹² “Unencumbered” means free of legal, regulatory, contractual or other restrictions on the ability of the Reporting Bank to liquidate, sell, transfer or assign the assets.

[MAS Notice 649 (Amendment) 2019]

^{12A} For example, a Reporting Bank shall exclude from the stock of HQLA those assets where there are impediments to sale, such as large fire-sale discounts which would cause it to breach minimum solvency requirements, or requirements to hold such assets, including, but not limited to, statutory minimum inventory requirements for market making.

[MAS Notice 649 (Amendment) 2016]

- e) any liquid asset held to meet statutory liquidity requirements at a Reporting Bank's branch or subsidiary level (where applicable) may be included as HQLA at the consolidated level only if the expected cash flows as measured by the Reporting Bank's branch or subsidiary are also reflected in the consolidated LCR. Any surplus of HQLA held at the branch or subsidiary can only be included in the consolidated stock if those HQLA would also be freely available to the consolidated (parent) group in times of stress;

[MAS Notice 649 (Amendment) 2019]

- f) any asset received as collateral for derivatives transactions that are not segregated and are legally available and not yet rehypothecated may be included as HQLA provided that the Reporting Bank records an appropriate outflow for the associated risks as set out in paragraph 64;

[MAS Notice 649 (Amendment) 2019]

- g) the portion of liquid assets received as part of a basket of collateral as security for a transaction may be included as HQLA to the extent that it can be monetised separately;
- h) the unused portion of liquid assets which are pledged as collateral, as at the end of the day, except assets in a pool that is intended to collateralise derivatives transaction, may be included as HQLA. If a Reporting Bank is unable to determine which assets are unused, it shall assume that the assets are encumbered in the following order:

- i) firstly, non-HQLA eligible assets;

- ii) secondly, Level 2B(II) HQLA;

- iii) thirdly, Level 2B(I) HQLA;

- iv) fourthly, Level 2A HQLA;

- v) fifthly, Level 1 HQLA;

[MAS Notice 649 (Amendment) 2019]

- i) any liquid asset received as part of a securities borrowing transaction where the liquid assets can be returned or recalled during the next 30 days shall not be included as HQLA.

Guidelines of HQLA

- 23 A Reporting Bank should periodically monetise a representative proportion of the assets in the stock through repo or outright sale, in order to test its access to the market, the effectiveness of its processes for monetisation, the availability of the assets, and to minimise the risk of negative signalling during a period of actual stress.

[MAS Notice 649 (Amendment) 2019]

Composition of HQLA

- 24 HQLA shall comprise of Level 1 or Level 2 HQLA.
- 25 There is no limit or haircut applicable on Level 1 HQLA for the purposes of determining a Reporting Bank's LCR¹³.

[MAS Notice 649 (Amendment) 2019]

- 26 Level 2 HQLA comprises Level 2A and Level 2B HQLA. Level 2B HQLA comprises Level 2B(I) and Level 2B(II) HQLA. Level 2B(II), Level 2B and Level 2 HQLA shall comprise a maximum of 5%, 15% and 40% of total HQLA respectively.

[MAS Notice 649 (Amendment) 2019]

- 27 Level 2A HQLA are subject to a 15% haircut on the current market value of each Level 2A HQLA. Level 2B HQLA are subject to a 25% haircut on the current market value of RMBS, and a 50% haircut on the current market value of corporate debt securities (including commercial paper), sovereign debt securities, PSE debt securities and ordinary shares. Where a liquid asset can be categorised into different categories of HQLA, a Reporting Bank shall categorise the liquid asset into the HQLA category with the highest haircut except where expressly provided, or where the Reporting Bank has obtained the approval of the Authority to do otherwise. A Reporting Bank may apply to the Authority for such approval with evidence supporting the less conservative treatment.

[MAS Notice 649 (Amendment) 2019]

- 28 A Reporting Bank shall calculate the cap on Level 2 HQLA and Level 2B HQLA after the application of the required haircuts, and after taking into account the unwinding of short-term securities financing transactions and collateral swap transaction maturing

¹³ For the purposes of calculating the LCR, Level 1 HQLA shall be measured at an amount no greater than their current market value.

within 30 calendar days that involve the exchange of HQLA. In this context, short term transactions are transactions with a maturity date up to and including 30 calendar days.

[MAS Notice 649 (Amendment) 2019]

- 29 If a liquid asset no longer qualifies as HQLA, (e.g. due to rating downgrade), a Reporting Bank is permitted to keep such liquid assets as HQLA for an additional 30 calendar days. This would allow the Reporting Bank additional time to adjust its HQLA as needed or replace the liquid asset.

[MAS Notice 649 (Amendment) 2019]

- 30 The Authority may vary the types of HQLA when deemed appropriate. The formula for the computation of HQLA is found in Appendix 6.

Total net cash outflows

- 31 Total net cash outflows is defined as total expected cash outflows minus –

- a) total expected cash inflows; or
- b) 75% of total expected cash outflows,

whichever is the lower. Transactions between entities in a country-level group shall not be included for the purposes of computing total net cash outflows.

- 32 Except where otherwise stated, expected cash outflows and inflows are computed by multiplying the outflow and inflow rates respectively to the outstanding balances of the outflow and inflow items due within 30 days from the computation date. Appendix 7 provides a summary of the outflow and inflow rates that are applied to each category of cash outflows and cash inflows.

- 33 A Reporting Bank shall not double count assets and liabilities in the computation of the LCR. If a liquid asset is included as part of HQLA, the cash inflows associated with that liquid asset cannot be counted as part of the total expected cash inflows.

[MAS Notice 649 (Amendment) 2019]

- 34 Where transactions can be categorised into multiple categories with different inflow or outflow factors, a Reporting Bank shall adopt the higher outflow factor or lower inflow factor, as the case may be, except where expressly provided otherwise or where the Reporting Bank has obtained the approval of the Authority to do otherwise.

[MAS Notice 649 (Amendment) 2019]

Cash outflows

(A) Retail deposit cash outflows

35 Retail deposits are deposits placed with a Reporting Bank by a natural person. Deposits from legal entities, sole proprietorships or partnerships are captured in the wholesale funding categories. Retail deposits that may be included as part of the LCR computation include demand deposits and term deposits, unless otherwise excluded under the criteria set out in paragraphs 40 and 41.

[MAS Notice 649 (Amendment) 2019]

36 Retail deposits are divided into “stable” and “less stable” as described below.

(I) Stable deposits

37 Stable deposits are those which are fully insured¹⁴ by the Singapore Deposit Insurance Corporation Limited (SDIC)¹⁵, or an effective government deposit insurance scheme¹⁶, where –

- a) the depositors have established relationships with the Reporting Bank such that the deposits are highly unlikely to be withdrawn (“established relationships”); or
- b) the deposits are in transactional accounts (e.g. account where salaries are automatically credited).

[MAS Notice 649 (Amendment) 2019]

¹⁴ Fully insured means that the deposit amount, up to the deposit insurance limit, will be fully paid out by an effective deposit insurance scheme. Deposit balances up to the deposit insurance limit can be treated as “fully insured” or “stable” even if a depositor has a balance in excess of the deposit insurance limit. However, any amount in excess of the deposit insurance limit is to be treated as “less stable”.

¹⁵ The current cash outflow rate for stable deposits fully insured by the Singapore Deposit Insurance Corporation Limited (SDIC) is 5%. This may change to 3% when the insurance scheme meets the additional criteria of (i) the insurance scheme is based on a system of prefunding via the periodic collection of levies on banks with insured deposits; (ii) the scheme has adequate means of ensuring ready access to additional funding in the event of a large call on its reserves, e.g. an explicit and legally binding guarantee from the government, or a standing authority to borrow from the government; and (iii) access to insured deposits is available to depositors no more than 7 business days once the deposit insurance scheme is triggered.

[MAS Notice 649 (Amendment) 2019]

¹⁶ Effective deposit insurance scheme means – A scheme (i) that guarantees that it has the ability to make prompt payouts, (ii) for which the coverage is clearly defined and (iii) of which public awareness is high. The deposit insurer in an effective deposit insurance scheme has formal legal powers to fulfil its mandate and is operationally independent, transparent and accountable. A jurisdiction with an explicit and legally binding sovereign deposit guarantee that effectively functions as deposit insurance can be regarded as having an effective deposit insurance scheme.

- 38 Where a Reporting Bank has a branch or subsidiary in other jurisdictions carrying on banking business, and has stable deposits that are fully insured by other effective government deposit insurance schemes, the Reporting Bank shall follow the relevant treatment adopted in the host jurisdiction where the branch or subsidiary operates.

[MAS Notice 649 (Amendment) 2019]

(II) Less stable deposits

- 39 Less stable deposits are deposits that are not stable deposits.

(III) Retail term deposits

- 40 A Reporting Bank shall exclude the cash outflow from a retail term deposit with a residual maturity or withdrawal notice period of greater than 30 days from the total expected cash outflows, if the depositor has no legal right to withdraw the deposit within the 30-day LCR horizon, or if early withdrawal results in a significant penalty that is materially greater than the loss of interest. If a Reporting Bank allows a depositor to withdraw such deposits within the 30-day LCR horizon without applying any penalty that is materially greater than the loss of interest, notwithstanding a clause that says the depositor has no legal right to withdraw, the entire category of such deposits would then have to be treated as either stable or less stable deposits depending on their fulfilment of the criteria in paragraphs 35 to 39.

[MAS Notice 649 (Amendment) 2016]

[MAS Notice 649 (Amendment) 2019]

- 41 Where a Reporting Bank has a branch or subsidiary in other jurisdictions carrying on banking business, the Reporting Bank shall apply the cash flow rates outlined in this Notice when it calculates its LCR except for deposits from retail and small business customers where the Reporting Bank shall follow the relevant treatment adopted in the host jurisdiction where the branch or subsidiary operates, subject to the requirements in paragraph 110.

[MAS Notice 649 (Amendment) 2019]

(B) Unsecured wholesale funding cash outflows

- 42 “Unsecured wholesale funding” is defined as those liabilities and general obligations of persons who are not natural persons and such liabilities and general obligations that are not secured by legal rights to specifically designated assets owned by the person in the event of the bankruptcy, insolvency, liquidation or resolution of the person. Liabilities and obligations related to derivative contracts are explicitly excluded from this definition.

- 43 The unsecured wholesale funding included in the LCR is defined as all funding that is callable within 30 calendar days or that has its earliest possible contractual maturity date situated within this horizon (such as maturing term deposits and unsecured debt securities) as well as funding with an undetermined maturity, and includes all funding with options that are exercisable at the counterparty's discretion within 30 calendar days. For options exercisable at the Reporting Bank's discretion, the Reporting Bank shall consider reputational factors that may limit the Reporting Bank's ability not to exercise the option and its impact on unsecured wholesale funding cash outflows.

[MAS Notice 649 (Amendment) 2016]

[MAS Notice 649 (Amendment) 2019]

- 44 Unsecured wholesale funding that is callable by such counterparties subject to a contractually defined and binding notice period surpassing the horizon of 30 calendar days is not included.

(I) Unsecured wholesale funding provided by small business customers

- 45 Unsecured wholesale funding provided by small business customers is treated the same way as retail deposits i.e. on the same basis as determining stable and less stable deposits and associated cash outflow rates apply.

(II) Operational deposits generated by clearing, custody and cash management activities

- 46 Only operational deposits from customers with qualifying clearing, custody and cash management accounts with the Reporting Bank ("qualifying operational deposits") are allocated a cash outflow rate of 25%. The portion of operational deposits generated by clearing, custody and cash management activities that is fully covered by any deposit insurance scheme shall receive the same treatment as "stable" retail deposits. To ensure that the Reporting Bank utilising this treatment is conducting the clearing, custody and cash management activities at the level indicated, the Reporting Bank shall obtain the approval of the Authority to utilise the cash outflow rates set out in this paragraph.

[MAS Notice 649 (Amendment) 2016]

[MAS Notice 649 (Amendment) 2019]

- 47 Qualifying clearing, custody or cash management activities shall meet the following criteria:

- a) the customer is reliant on the Reporting Bank to perform these services as an independent third party intermediary in order to fulfil its normal banking activities over the next 30 days. For example, this condition would not be met if the Reporting Bank is aware that the customer has adequate back-up arrangements;

- b) the Reporting Bank is providing these services under a legally binding agreement to customers;
- c) the customer may only terminate such agreements either by giving prior notice of at least 30 days or paying significant switching costs (such as those related to transaction, information technology, early termination or legal costs) if the operational deposits are withdrawn before 30 days.

[MAS Notice 649 (Amendment) 2019]

48 Qualifying operational deposits generated from the qualifying clearing, custody and cash management activities shall meet the following criteria:

- a) the deposits are by-products of the underlying services provided by the Reporting Bank and not sought out in the wholesale market in the sole interest of offering interest income;
- b) the deposits are held in specifically designated accounts and priced without giving an economic incentive to the customer (not limited to paying market interest rates) to leave any excess funds on these accounts. In the case that interest rates in a jurisdiction are close to zero, such accounts are likely to be non-interest bearing. A Reporting Bank should be particularly aware that during prolonged periods of low interest rates, excess balances (as defined below) could be significant.

[MAS Notice 649 (Amendment) 2019]

49 Any excess balances that may be withdrawn while still leaving sufficient funds to fulfil the qualifying clearing, custody and cash management activities do not qualify as operational deposits.

50 A Reporting Bank shall determine the methodology for identifying excess deposits that are excluded from this category. A Reporting Bank shall conduct the assessment based on the methodology at a sufficiently granular level to adequately assess the risk of withdrawal in an idiosyncratic stress. The methodology shall take into account relevant factors such as the likelihood that wholesale customers have above average balances in advance of specific payment needs, and consider appropriate indicators (e.g. ratios of account balances to payment or settlement volumes or to assets under custody) to identify those customers that are not actively managing account balances efficiently.

[MAS Notice 649 (Amendment) 2019]

- 51 Operational deposits would receive a 0% inflow assumption for the depositing Reporting Bank given that these deposits are required for operational reasons, and are therefore not available to the depositing Reporting Bank to repay other outflows.

[MAS Notice 649 (Amendment) 2019]

- 52 Notwithstanding the inclusion of a deposit into the operational deposit category, if the deposit under consideration arises out of correspondent banking¹⁷ or from the provision of prime brokerage services, a Reporting Bank shall treat the deposit as if there were no operational activity for the purposes of determining cash outflow rates.

[MAS Notice 649 (Amendment) 2019]

(III) Deposits in institutional networks of cooperative banks

- 53 An institutional network of cooperative (or otherwise named) banks is a group of legally autonomous banks with a statutory framework of cooperation with common strategic focus and brand where specific functions are performed by central institutions or specialised service providers. A cash outflow rate of 25% may be applied to the amount of deposits of member institutions with the central institution or specialised central service providers that are placed arising from statutory minimum deposit requirements or in the context of common task sharing and legal, statutory or contractual arrangements so long as both the Reporting Bank that has received the monies and the bank that has deposited the monies participate in the same institutional network's mutual protection scheme against illiquidity and insolvency of its members. As with other operational deposits, these deposits would receive a cash inflow rate of 0% for the depositing Reporting Bank, as these funds are considered to remain with the centralised institution.

[MAS Notice 649 (Amendment) 2019]

- 54 A Reporting Bank shall seek the Authority's approval before applying the treatment in paragraph 53. The Reporting Bank shall not include its correspondent banking activities in this category and such banking activities shall receive a cash outflow rate of 100%, as would funds placed at the central institutions or specialised service providers for any other reason other than those outlined in paragraph 53 above, or for clearing, custody, or cash management activities.

[MAS Notice 649 (Amendment) 2019]

¹⁷ Correspondent banking refers to arrangements under which one bank (correspondent) holds deposits owned by other banks (respondents) and provides payment and other services in order to settle foreign currency transactions (e.g. so-called nostro and vostro accounts used to settle transactions in a currency other than the domestic currency of the respondent bank for the provision of clearing and settlement of payments). Prime brokerage is a package of services offered to large active investors, particularly institutional hedge funds. These services usually include: clearing, settlement and custody; consolidated reporting; financing (margin, repo or synthetic); securities lending; capital introduction; and risk analytics.

(IV) Deposits contractually pledged to a Reporting Bank as collateral to secure other transactions

[MAS Notice 649 (Amendment) 2019]

55 Notwithstanding the paragraphs above, if a deposit is contractually pledged to a Reporting Bank as collateral to secure a credit facility or loan granted by the Reporting Bank (“pledged deposit”) that will not mature or settle within the next 30 days, the pledged deposit may be excluded from the LCR only if all the following conditions are met:

- a) the loan or credit facility is not maturing in the next 30 days;
- b) there is a legally enforceable contract disallowing withdrawal of the pledged deposit before the loan is fully settled or repaid;
- c) the amount of deposit that is excluded from the LCR does not exceed the outstanding balance of the loan or drawn portion of the credit facility.

This shall not apply to a deposit which is pledged against an undrawn facility, in which case the higher of the outflow rate applicable to the undrawn facility or the pledged deposit applies.

[MAS Notice 649 (Amendment) 2019]

(V) Unsecured wholesale funding provided by non-financial corporate and sovereigns, central banks, multilateral development banks and PSEs

56 A Reporting Bank shall apply a cash outflow rate of 20% on unsecured wholesale funding provided by corporate customers which are not financial institutions, sovereigns, central banks, multilateral development banks, and PSEs, that also do not qualify as operational deposits if the entire amount of the deposit is fully covered by an effective deposit insurance scheme or by a public guarantee that provides equivalent protection. Otherwise, the Reporting Bank shall apply a cash outflow rate of 40% on such unsecured wholesale funding.

[MAS Notice 649 (Amendment) 2019]

(VI) Unsecured wholesale funding provided by other customers which are not natural persons

57 A Reporting Bank shall apply a cash outflow rate of 100% on all deposits and other funding from other institutions (including banks, securities firms, insurance companies), fiduciaries, beneficiaries, conduits and special purpose vehicles, affiliated entities of the

Reporting Bank and other entities that are not specifically held for operational purposes (as defined above) and not included in paragraphs 42 to 56. Outflows from unsecured wholesale funding over the 30-day LCR horizon and provided by intragroup banking entities may be computed on a net basis with inflows from unsecured wholesale funding over the 30-day LCR horizon provided by intragroup banking entities.

[MAS Notice 649 (Amendment) 2019]

- 58 All notes, bonds and other debt securities issued by the Reporting Bank are to be included in this category regardless of the holder, unless the bond is sold exclusively in the retail market and held in retail accounts (including small business customer accounts), in which case a Reporting Bank may include the notes, bonds or debt securities in the appropriate retail or small business customer deposit category provided that limitations are placed on the instrument by the Reporting Bank such that those instruments cannot be bought and held by parties other than retail or small business customers.

[MAS Notice 649 (Amendment) 2019]

- 59 A Reporting Bank shall separate customer cash balances arising from the provision of prime brokerage services, including but not limited to the cash arising from prime brokerage services as identified in paragraph 52, from any required segregated balances related to client protection regimes imposed by national regulations and such cash balances shall not be netted against other customer exposures included in LCR. These offsetting balances held in segregated accounts are treated as inflows and shall be excluded from HQLA.

[MAS Notice 649 (Amendment) 2019]

(C) Secured funding cash outflows

- 60 A Reporting Bank shall include as secured funding cash outflows any liabilities and general obligations that are collateralised by legal rights to specifically designated assets owned by the borrowing institution in the case of bankruptcy, insolvency, liquidation or resolution. The Reporting Bank shall include forward repurchase transactions and collateral swaps that start prior to, but mature within the 30-day LCR horizon in this category.

[MAS Notice 649 (Amendment) 2019]

- 61 A Reporting Bank shall treat collateral swaps as a combination of a repurchase and reverse repurchase agreement, as shall any other transaction which involves an exchange of non-cash assets. The net outflow for collateral swaps is computed based on the net cash outflow that will result from an equivalent repurchase and reverse repurchase

transaction, floored at 0%. The Reporting Bank shall treat collateral lent to the Reporting Bank's customers to effect short positions as a form of secured funding.

[MAS Notice 649 (Amendment) 2019]

62 If a pool of assets is used as collateral for a secured funding transaction, and a Reporting Bank is unable to determine specifically which assets are used to collateralise the transaction, it shall assume that the assets are encumbered in the following order:

- a) firstly, non-HQLA eligible assets;
- b) secondly, Level 2B(II) HQLA;
- c) thirdly, Level 2B(I) HQLA;
- d) fourthly, Level 2A HQLA;
- e) fifthly, Level 1 HQLA.

[MAS Notice 649 (Amendment) 2019]

63 Appendix 7 provides a summary of the cash outflow rates that applies to each category for outstanding secured funding transactions that matures within the 30-day LCR horizon. A Reporting Bank shall apply the outflow rates to the amount of funds raised through the secured funding transaction.

[MAS Notice 649 (Amendment) 2019]

(D) Additional requirements

64 **Cash outflows from derivative contracts:** The sum of all net cash outflows from derivative contracts shall be assigned a cash outflow rate of 100%. A Reporting Bank shall calculate, in accordance with its existing valuation methodologies, expected cash inflows and outflows from its derivative contracts. A Reporting Bank may calculate its cash flows with its counterparty on a net basis (i.e. derivative inflows within the 30-day LCR horizon can offset derivative outflows within the 30-day LCR horizon), where it has entered into a valid master netting agreement with that counterparty. In determining its all currency LCR, a Reporting Bank may calculate its cash flows on a net basis for foreign exchange derivative contracts not covered by a master netting agreement, where it involves a full exchange of principal amounts within the same day. The Reporting Bank shall exclude from such calculations those liquidity requirements that would result from increased collateral needs due to market value movements or falls in value of collateral posted. Options shall be assumed to be exercised at the point when they are 'in the money' to the option buyer. Where derivative payments are collateralised by HQLA, cash outflows are calculated net of any corresponding cash or collateral inflows that would

result, all other things being equal, from contractual obligations for cash or collateral to be provided to the Reporting Bank, if the Reporting Bank is legally entitled and operationally capable to re-use the collateral in new cash raising transactions once the collateral is received. The Reporting Bank shall treat outflows from options with delivery settlement as secured borrowing transactions, where the delivered assets are treated as collateral in secured transactions or collateral swaps, with the appropriate outflow factors assigned in paragraphs 60 to 63. If contractual arrangements allow for both physical delivery and cash settlement, cash settlement may be assumed. For physical delivery, where not otherwise stated in the derivative contract, delivery of the least value security (“cheapest to deliver”) may be assumed.

[MAS Notice 649 (Amendment) 2019]

- 65 **Increased liquidity needs related to downgrade triggers embedded in financing transactions, derivatives and other contracts:** Often, contracts governing derivatives and other transactions have clauses that require the posting of additional collateral, drawdown of contingent facilities, or early repayment of existing liabilities upon the Reporting Bank’s downgrade by a recognised credit rating organisation. For each contract in which downgrade triggers exist, the Reporting Bank shall assume that 100% of this additional collateral or cash outflow as stated in the governing contract shall be posted for any downgrade during the next 30 calendar days up to and including a 3-notch downgrade of the Reporting Bank’s long-term credit rating. Triggers linked to a Reporting Bank’s short-term rating shall be triggered at the corresponding long-term rating in accordance with published ratings criteria. The Reporting Bank shall consider impacts on all types of margin collateral and contractual triggers which change rehypothecation rights for non-segregated collateral for the impact of the downgrade.

[MAS Notice 649 (Amendment) 2019]

- 66 **Increased liquidity needs related to the potential for valuation changes on posted collateral securing derivative and other transactions:** Observation of market practices indicates that most counterparties to derivatives transactions typically are required to secure the mark-to-market valuation of their positions and that this is predominantly done using cash or sovereign, central bank, multilateral development banks, or PSE debt securities with a 0% risk weight under the Basel II standardised approach. When these Level 1 HQLA securities are posted as collateral, the framework will not require that additional HQLA be maintained for potential valuation changes. If however, counterparties are securing mark-to-market exposures with other forms of collateral, to cover the potential loss of market value on those securities, 20% of the value of all such posted collateral, net of collateral received on a counterparty basis (provided that the collateral received is not subject to restrictions on reuse or rehypothecation) will be added to the stock of required HQLA by the Reporting Bank posting such collateral. This 20% will be calculated based on the notional amount required to be posted as collateral after any other haircuts have been applied that may be applicable to the collateral category.

Any collateral that is in a segregated margin account can only be used to offset outflows that are associated with payments that are eligible to be offset from that same account. The notional amount to be collateralised shall be based on the contractual terms of the transaction. The Reporting Bank shall not net collateral inflows and outflows across counterparties. The Reporting Bank shall compute the amount of collateral to be posted in accordance with the relevant contract governing the respective transactions.

[MAS Notice 649 (Amendment) 2019]

- 67 **Increased liquidity needs related to excess non-segregated collateral held by the Reporting Bank that could contractually be called at any time by the counterparty:** A Reporting Bank shall include 100% of the non-segregated collateral amount that could contractually be recalled by the counterparty because the collateral is in excess of the counterparty's current collateral requirements. The Reporting Bank shall compute the amount that can be recalled in accordance with the relevant contract governing the transactions.

[MAS Notice 649 (Amendment) 2019]

- 68 **Increased liquidity needs related to contractually required collateral on transactions for which the counterparty has not yet demanded the collateral be posted:** A Reporting Bank shall include 100% of the collateral amount that is contractually due but where the counterparty has not yet demanded the posting of such collateral. The amount of collateral shall be computed in accordance with the relevant contract governing the transactions.

[MAS Notice 649 (Amendment) 2019]

- 69 **Increased liquidity needs related to contracts that allow collateral substitution to non-HQLA assets or lower-quality HQLA:** A Reporting Bank shall include a cash outflow equivalent to the market value of the initial HQLA collateral received multiplied by the difference in haircuts (as defined in paragraph 27) of the received collateral and the potential substitute collateral. This shall apply to initial HQLA collateral received that is counted in the Reporting Bank's HQLA, and that can be substituted for non-HQLA assets or lower-quality HQLA assets without the Reporting Bank's consent, where such HQLA collateral has been received to secure transactions that have not been segregated. The Reporting Bank shall compute the contingent outflow resulting from collateral substitution in secured lending or borrowing transactions in accordance with the relevant contract governing the transactions.

[MAS Notice 649 (Amendment) 2019]

- 70 **Increased liquidity needs related to market valuation changes on derivative or other transactions:** As market practice requires collateralisation of mark-to-market exposures

on derivative and other transactions, a Reporting Bank faces potentially substantial liquidity risk exposures to these valuation changes. A Reporting Bank may treat inflows and outflows of transactions executed under the same master netting agreement on a net basis. A Reporting Bank shall include any outflow generated by increased needs related to market valuation changes in its calculation of the LCR by identifying the largest absolute net 30-day collateral flow realised during the preceding 24 months. The absolute net collateral flow is based on both realised outflows and inflows, including payments and receipts which are deemed to settle outstanding exposures from exchange-traded and over-the-counter derivatives structured as “settled-to-market”. The largest absolute net 30-day collateral flow shall be assessed on a portfolio level. The Reporting Bank shall compute the contingent outflow resulting from market valuation changes in accordance with the relevant contract governing the transactions.

[MAS Notice 649 (Amendment) 2019]

- 71 **Loss of funding on asset-backed securities, covered bonds and other structured financing instruments:** A Reporting Bank shall assign a cash outflow rate of 100% for such instruments maturing within the 30-day period, when these instruments are issued by the Reporting Bank (as this assumes that the re-financing market will not exist). For products maturing within the next 30 days, a Reporting Bank may offset inflows from Level 1 or Level 2 HQLA used as collateral for the products against the redemption payment of the products. Any net inflow shall be considered as other contractual cash inflows in paragraph 108.

[MAS Notice 649 (Amendment) 2019]

- 72 **Loss of funding on asset-backed commercial paper, conduits, securities investment vehicles and other such financing facilities:** A Reporting Bank having structured financing facilities that include the issuance of short-term debt instruments, such as asset backed commercial paper, shall fully consider the potential liquidity risk arising from these structures. These risks include the inability of the Reporting Bank to refinance maturing debt, and the existence of derivatives or derivative-like components contractually written into the documentation associated with the structure that would allow the “return” of assets in a financing arrangement, or that require the original asset transferor to provide liquidity, effectively ending the financing arrangement (“liquidity puts”) within the 30-day period. Where the structured financing activities of a Reporting Bank are conducted through a special purpose entity (such as a special purpose vehicle (“SPV”), conduit or structured investment vehicle – (“SIV”)), the Reporting Bank shall, in determining the HQLA requirements, look through to the maturity of the debt instruments issued by the entity and any embedded options in financing arrangements that may potentially trigger the “return” of assets or the need for liquidity, irrespective of whether or not the SPV is consolidated.

Table 2: Outflow rates from potential risk elements

Potential Risk Element	Cash outflow rate required
Debt maturing within the 30 -day period	A cash outflow rate of 100% on maturing amount
Embedded options in financing arrangements that allow for the return of assets or potential liquidity support	A cash outflow rate of 100% on the amount of assets that could potentially be returned, or the liquidity required

[MAS Notice 649 (Amendment) 2019]

- 73 **Drawdowns on committed credit and liquidity facilities:** Committed facilities are defined as explicit contractual agreements or obligations to extend funds at a future date to retail or wholesale counterparties, which are contractually irrevocable or conditionally revocable agreements. A Reporting Bank shall classify facilities that are unconditionally cancellable by the Reporting Bank (in particular, those without a precondition of a material change in the credit condition of the borrower) as other contingent funding obligations as outlined in paragraph 82. Irrevocable or conditionally revocable facilities or funding commitments can have long or short-term maturities, with short-term facilities frequently renewing or automatically rolling-over. In a stressed environment, it will likely be difficult for customers drawing on facilities of any maturity, even short-term maturities, to be able to quickly pay back the borrowings. Therefore, for purposes of this Notice, all such facilities that are assumed to be drawn as outlined in paragraphs 74 to 79 shall remain outstanding at the amounts assigned throughout the 30-day period in computing the net outflows for the LCR, regardless of maturity.

[MAS Notice 649 (Amendment) 2019]

- 74 The currently undrawn portion of these committed facilities is calculated net of any HQLA which have already been posted as collateral by the counterparty to secure the facilities, or that are contractually obliged to be posted when the counterparty draws down the facility (e.g. a liquidity facility structured as a repo facility). This is provided that the Reporting Bank is legally entitled and operationally capable to re-use the collateral in new cash raising transactions once the facility is drawn, and there is no undue correlation between the probability of drawing the facility and the market value of the collateral. The collateral can be netted against the outstanding amount of the facility to the extent that this collateral is not already counted in the stock of HQLA.

[MAS Notice 649 (Amendment) 2019]

75 A committed liquidity facility is defined as any committed, undrawn back-up facility that would be utilised to refinance the debt obligations of a customer in situations where such a customer is unable to rollover that debt in financial markets (e.g. pursuant to a commercial paper programme, secured financing transactions, obligations to redeem units). For the purpose of this Notice, the amount of the commitment to be treated as a committed liquidity facility is the amount of the currently outstanding debt issued by the customer (or proportionate share, if a syndicated facility) maturing within a 30-day period that is backstopped by the facility. The portion of a liquidity facility that is backing debt that does not mature within the 30-day window is excluded from the scope of the definition of a facility.

76 Any additional capacity of the committed liquidity facility in paragraph 75 (i.e. the remaining commitment) would be treated as a committed credit facility with its associated drawdown rate as specified in paragraph 79. General working capital facilities for corporate entities (e.g. revolving credit facilities in place for general corporate or working capital purposes) will not be classified as liquidity facilities, but as credit facilities.

77 Notwithstanding paragraphs 73 to 76, any committed facilities provided to hedge funds, money market funds and special purpose funding vehicles or conduits, or other vehicles used to finance the Reporting Bank's own assets, are to be captured in their entirety as a committed liquidity facility to other legal entities.

[MAS Notice 649 (Amendment) 2019]

78 For that portion of financing programs issued by a Reporting Bank that are captured under paragraphs 71 and 72 (i.e. are maturing or have liquidity puts that may be exercised within 30 calendar days), the Reporting Bank that is the provider of the associated liquidity facilities does not need to double count the maturing financing instrument and the liquidity facility for consolidated programs.

[MAS Notice 649 (Amendment) 2019]

79 Any contractual and estimated loan drawdowns from committed facilities within the 30-day period shall be fully reflected as cash outflows with the following outflow rates:

- a) Committed credit and liquidity facilities to retail and small business customers: A Reporting Bank shall assume a cash outflow rate of 5% of the undrawn portion of these facilities;
- b) Committed credit facilities to non-financial corporates, sovereigns and central banks, PSEs and multilateral development banks: A Reporting Bank shall assume a cash outflow rate of 10% of the undrawn portion of these credit facilities;

- c) Committed liquidity facilities to non-financial corporates, sovereigns and central banks, PSEs, and multilateral development banks: A Reporting Bank shall assume a cash outflow rate of 30% of the undrawn portion of these liquidity facilities;
- d) Committed credit and liquidity facilities extended to banks (whether licensed in Singapore or not) subject to prudential supervision: A Reporting Bank shall assume a cash outflow rate of 40% of the undrawn portion of these facilities;
- e) Committed credit facilities to other financial institutions including securities firms, insurance companies, fiduciaries, and beneficiaries: A Reporting Bank shall assume a cash outflow rate of 40% of the undrawn portion of these credit facilities;
- f) Committed liquidity facilities to other financial institutions including securities firms, insurance companies, fiduciaries, and beneficiaries: A Reporting Bank shall assume a cash outflow rate of 100% of the undrawn portion of these liquidity facilities;
- g) Committed credit and liquidity facilities to other legal entities (including SPEs, conduits and special purpose vehicles, and other entities not included in the prior categories): A Reporting Bank shall assume a cash outflow rate of 100% of the undrawn portion of these facilities.

[MAS Notice 649 (Amendment) 2019]

- 80 **Contractual obligations to extend funds within a 30-day period:** Any contractual lending obligations to financial institutions not captured elsewhere in this notice are to be captured here at a cash outflow rate of 100%.
- 81 If the total of all contractual obligations to extend funds to retail and non-financial corporate clients within the next 30 calendar days not captured in the prior paragraphs exceeds 50% of the total contractual inflows due in the next 30 calendar days from these clients, the difference shall be reported as a cash outflow rate of 100%.
- 82 **Other contingent funding obligations:** These contingent funding obligations may be either contractual or non-contractual and are not lending commitments. Non-contractual contingent funding obligations include associations with, or sponsorship of, products sold or services provided that may require the support or extension of funds in the future under stressed conditions. Non-contractual obligations may be embedded in financial products and instruments sold, sponsored, or originated by the institution that can give rise to unplanned balance sheet growth arising from support given for reputational risk considerations. These include products and instruments for which the customer or holder has specific expectations regarding the liquidity and marketability of the product or instrument and for which failure to satisfy customer expectations in a commercially reasonable manner would likely cause material reputational damage to the institution or

otherwise impair ongoing viability. The full amount of the obligations that is expected to materialise will receive a cash outflow rate of 100%.

- 83 Some of these contingent funding obligations are explicitly contingent upon a credit or other event that is not always related to the liquidity events simulated in the stress scenario, but may nevertheless have the potential to cause significant liquidity drains in times of stress. Where applicable, the Reporting Bank shall inform the Authority not later than the last calendar day of each year of such new contingent funding obligations that they have assumed.

[MAS Notice 649 (Amendment) 2016]

[MAS Notice 649 (Amendment) 2019]

- 84 Non-contractual contingent funding obligations related to potential liquidity draws from joint ventures or investments in entities, which are not consolidated, are to be captured in paragraph 82 where there is the expectation that the Reporting Bank will be the main liquidity provider when the entity is in need of liquidity. The methodology for quantifying such potential liquidity draws, in particular, those arising from the need to support investments in times of stress out of reputational concerns for the purposes of calculating the LCR standard, shall be agreed between the Reporting Bank and the Authority.

[MAS Notice 649 (Amendment) 2016]

[MAS Notice 649 (Amendment) 2019]

- 85 **Trade finance cash outflows:** Trade finance instruments consist of trade-related obligations, directly underpinned by the movement of goods or the provision of services, such as –

- a) documentary trade letters of credit, documentary and clean collection, import bills and export bills; and
- b) guarantees directly related to trade finance obligations, such as shipping guarantees.

- 86 For contingent funding obligations stemming from trade finance instruments, a Reporting Bank shall apply a cash outflow rate of 3%.

[MAS Notice 649 (Amendment) 2019]

- 87 Lending commitments, such as direct import or export financing for non-financial corporate firms, are excluded from the above treatment and a Reporting Bank shall apply the cash outflow rates specified in paragraph 79 for such commitments.

[MAS Notice 649 (Amendment) 2019]

- 88 **Non contractual obligations where customer short positions are covered by other customers' collateral:** A Reporting Bank shall apply a cash outflow rate of 50% on such contingent obligations where the Reporting Bank has internally matched client assets against other clients' short positions, where the collateral does not qualify as Level 1 or Level 2 HQLA, and the Reporting Bank may be obligated to find additional sources of funding for these positions in the event of client withdrawals.

[MAS Notice 649 (Amendment) 2019]

- 89 **Other contractual cash outflows:** Any other contractual cash outflows within the next 30 calendar days shall be captured in this Notice, such as outflows to cover unsecured collateral borrowings, uncovered short positions, dividends or contractual interest payments, with explanation given as to what comprises this bucket. A Reporting Bank shall apply a cash outflow rate of 100% to these contractual cash outflows. A Reporting Bank however does not need to include outflows related to operating costs.

[MAS Notice 649 (Amendment) 2019]

Cash inflows

- 90 When considering its available cash inflows, a Reporting Bank shall only include contractual inflows (including interest payments) from outstanding exposures that are fully performing and for which the Reporting Bank has no reason to expect a default within the next 30 calendar days. The Reporting Bank shall not include contingent inflows in total net cash inflows.

[MAS Notice 649 (Amendment) 2019]

- 91 **Cap on total inflows:** In order to prevent Reporting Banks from relying solely on anticipated inflows to meet their liquidity requirement, and also to ensure a minimum level of HQLA holdings, the amount of inflows that can offset outflows shall be capped at 75% of total expected cash outflows as calculated in Part II – LCR of the Notice.

[MAS Notice 649 (Amendment) 2019]

(E) Secured lending, including reverse repos and securities borrowing

- 92 For maturing reverse repurchase or securities borrowing agreements –
- a) if the agreement is secured by Level 1 HQLA, a cash inflow rate of 0% shall be assumed;
 - b) if the agreement is secured by Level 2 HQLA, a cash inflow rate equivalent to the relevant haircut for the specific HQLA shall be assumed; or

- c) if the agreement is secured by non-HQLA, a cash inflow rate of 100% shall be assumed.

Collateralised loans extended to customers for the purposes of taking leveraged trading positions (“margin loans”) are to receive 50% of contractual inflows (i.e. a cash inflow rate of 50%) from maturing margin loans made against collateral which would not be considered as HQLA. Table 3 lists the relevant inflow rates.

[MAS Notice 649 (Amendment) 2019]

- 93 As an exception to paragraph 92, if the collateral obtained through reverse repurchase, securities borrowing, or collateral swaps is used to cover short positions that could be extended beyond 30 days, a Reporting Bank shall assume that such reverse repurchase or securities borrowing arrangements will be rolled-over and will not give rise to any cash inflows (i.e. a cash inflow rate of 0%), reflecting its need to continue to cover the short position or to re-purchase the relevant securities. Table 3 lists the relevant inflow rates.

Table 3: Maturing secured lending inflow rates

Maturing secured lending backed by the following asset category	Inflow rate (if collateral is not used to cover short positions)	Inflow rate (if collateral is used to cover short positions)
Level 1 HQLA	0%	0%
Level 2A HQLA	15%	0%
Level 2B HQLA		
• Eligible RMBS	25%	0%
• Other Level 2B HQLA	50%	0%
Margin lending backed by all other collateral	50%	0%
Other collateral	100%	0%

[MAS Notice 649 (Amendment) 2019]

- 94 In the case of a Reporting Bank’s short positions, if the short position is being covered by an unsecured security borrowing, the Reporting Bank shall assume the unsecured security borrowing of collateral from financial market participants would run-off in full, leading to a 100% outflow of either cash or HQLA to secure the borrowing, or cash to close out the short position by buying back the security. This shall be recorded as a 100% other contractual outflow according to paragraph 89. If, however, the Reporting Bank’s short position is being covered by a collateralised securities financing transaction, the Reporting Bank shall assume the short position will be maintained throughout the 30-day period and receive a cash inflow rate of 0%.

[MAS Notice 649 (Amendment) 2019]

95 If a pool of assets is used as collateral for a secured lending transaction, and a Reporting Bank is unable to determine specifically which assets are used to collateralise the transaction, it shall assume that the assets are encumbered in the following order:

- a) firstly, non-HQLA eligible assets;
- b) secondly, Level 2B(II) HQLA;
- c) thirdly, Level 2B(I) HQLA;
- d) fourthly, Level 2A HQLA;
- e) fifthly, Level 1 HQLA.

[MAS Notice 649 (Amendment) 2019]

96 Notwithstanding the roll-over assumptions in paragraphs 92 and 93, a Reporting Bank shall manage its collateral such that it is able to fulfil obligations to return collateral whenever the counterparty decides not to roll-over any reverse repo or securities lending transaction.

[MAS Notice 649 (Amendment) 2019]

97 A Reporting Bank shall include forward reverse repurchase transactions and collateral swaps that start prior but mature within the 30-day LCR horizon in this category.

[MAS Notice 649 (Amendment) 2019]

98 Paragraphs 92 to 97 shall not apply to any transaction where there is a possibility of the inflow occurring after 30 days.

(F) Committed facilities

99 Credit facilities, liquidity facilities or other contingent funding facilities that the Reporting Bank holds at other institutions for its own purposes receive a cash inflow rate of 0%.

[MAS Notice 649 (Amendment) 2019]

(G) Other inflows by counterparty

100 For loan payments, a Reporting Bank shall only include cash inflows from fully performing loans. In addition, a Reporting Bank shall only include cash inflows at the latest possible date, based on the contractual rights available to counterparties. For revolving credit facilities, the Reporting Bank shall assume that the existing loan will be

rolled over and any remaining balances are treated as a committed facility according to paragraph 79.

[MAS Notice 649 (Amendment) 2019]

- 101 Cash inflows from loans that have no specific maturity shall not be included, except for minimum payments of principal, fee or interest associated with open maturity loans that are contractually due within 30 days. These minimum payment amounts are captured as inflows at the rates prescribed in paragraphs 102 and 103.

[MAS Notice 649 (Amendment) 2019]

(I) Retail and small business customer inflows

- 102 A Reporting Bank shall assume that all payments (including interest payments and instalments) from retail and small business customers that are fully performing and contractually due within the next 30 calendar days will be received in full. At the same time, the Reporting Bank shall assume that it will continue extending loans to retail and small business customers at a rate of 50% of contractual inflows. This results in a net cash inflow rate of 50% of the contractual amount.

[MAS Notice 649 (Amendment) 2019]

(II) Other wholesale inflows

- 103 A Reporting Bank shall assume that all payments (including interest payments and instalments) received from wholesale customers that are fully performing and contractually due within the next 30 calendar days will be received in full. In addition, the Reporting Bank is to assume to continue extending loans to wholesale customers at a rate of 0% of contractual inflows for financial institutions and central banks, and at a rate of 50% of contractual inflows for all others, including non-financial corporates, sovereigns, multilateral development banks, and PSEs. This will result in a net cash inflow rate of –

- a) 100% for financial institutions and central bank counterparties; and
- b) 50% for non-financial wholesale counterparties.

[MAS Notice 649 (Amendment) 2019]

- 104 Inflows from securities maturing within 30 days not included in HQLA shall receive a cash inflow rate of 100%.

105 Operational deposits of a Reporting Bank held at other financial institutions for operational purposes are to receive a cash inflow rate of 0%. Similarly, deposits held at the centralised institution in a cooperative banking network, which are assumed to stay at the centralised institution, are to receive a cash inflow rate of 0%. A Reporting Bank shall assess operational deposits according to the methodology in paragraphs 46 to 52. A deposit that has been classified by a receiving bank or financial institution, as the case may be, as operational shall also be considered by a depositing Reporting Bank as an operational deposit.

[MAS Notice 649 (Amendment) 2019]

106 Inflows from intragroup banking entities may be computed on a net basis with outflows from intragroup banking entities.

(H) Other cash inflows

107 **Cash inflows from derivative contracts:** the sum of all net cash inflows from derivative contracts shall be assigned a cash inflow rate of 100%. Where derivatives are collateralised by HQLA, a Reporting Bank shall calculate the cash inflows for the derivatives net of any corresponding cash or contractual collateral outflows. The Reporting Bank shall not double-count liquidity inflows or outflows. The amounts of cash inflows from derivative contracts shall be calculated in accordance to the methodology described in paragraph 64. A Reporting Bank shall treat inflows from an option with a delivery settlement as a secured lending transaction, with the appropriate inflows assigned as per paragraphs 92 to 96. If the contractual arrangements allow for both physical delivery and cash settlement, cash settlement may be assumed. For physical delivery, where not otherwise stated in the derivative contract, delivery of the least value security (“cheapest to deliver”) may be assumed.

[MAS Notice 649 (Amendment) 2016]

[MAS Notice 649 (Amendment) 2019]

108 **Other contractual cash inflows:** All other contractual cash inflows shall receive a cash inflow rate of 0%. A Reporting Bank shall include any other contractual cash inflows not captured in any other earlier category here, with an explanation as to what has been included in this category.

[MAS Notice 649 (Amendment) 2019]

109 A Reporting Bank shall not include the following items as contractual cash inflows:

- a) any cash inflow related to non-financial revenues;

- b) any forward repurchase, forward reverse repurchase agreements or forward collateral swap that starts and matures within the 30-day LCR horizon;
- c) any forward repurchase, forward reverse repurchase agreements or forward collateral swap that starts prior to and matures after the 30-day LCR horizon;
- d) any forward sales of HQLA.

[MAS Notice 649 (Amendment) 2019]

Scope of Application

110 Where a Reporting Bank has a branch or subsidiary in jurisdictions that do not apply the Basel Committee's global framework for liquidity risk, the Reporting Bank shall apply the parameters outlined in this Notice for its calculation of the LCR. Where a Reporting Bank has a branch or subsidiary in jurisdictions that apply the Basel Committee's global framework for liquidity risk, paragraphs 35 to 41 and footnote 8 shall be interpreted according to the host jurisdiction's equivalent LCR rules.

[MAS Notice 649 (Amendment) 2019]

111 Where a Reporting Bank has banking presence (branch or subsidiary) in jurisdictions that adopt the Alternative Liquidity Approaches, the Reporting Bank may include the HQLA recognised in these jurisdictions for its calculation of the LCR, up to the amount of the Reporting Bank's stressed net cash outflows stemming from the Reporting Bank or its subsidiary's operations in these jurisdictions, and in the domestic currency of these jurisdictions.

[MAS Notice 649 (Amendment) 2019]

112 The Authority reserves the right to impose stricter parameters where necessary.

Utilisation of HQLA

113 A Reporting Bank shall notify the Authority in writing of its intent to utilise its HQLA, where it will cause its LCR to fall below the prevailing minimum requirements as described in paragraphs 18, 18B and 19, in a liquidity stress situation prior to the utilisation. The Reporting Bank shall ensure that the notification is signed by its chief executive, chief financial officer or any equivalent senior management.

[MAS Notice 649 (Amendment) 2019]

114 A Reporting Bank shall –

- a) provide its justification for the utilisation of HQLA;
- b) set out the cause of the liquidity stress situation and to provide supporting documents, where available; and
- c) detail the steps which it has taken and is going to take to resolve the liquidity stress situation,

to the Authority within one business day after the utilisation of its HQLA.

[MAS Notice 649 (Amendment) 2019]

115 A Reporting Bank shall also keep the Authority informed of material developments during the liquidity stress situation.

[MAS Notice 649 (Amendment) 2019]

Frequency of calculation and reporting

116 Every Reporting Bank shall prepare the appropriate liquidity returns set out in Appendix 5 as at the last calendar day of each month.

[MAS Notice 649 (Amendment) 2019]

117 A Reporting Bank shall submit to the Authority electronically through MASNET the following liquidity returns prepared in accordance with paragraph 116 and at the following time, as the case may be:

- a) in the case of a Reporting Bank that is –
 - i) referred to in paragraph 18 or 18B; or
 - ii) approved under paragraph 4 to comply with LCR on a country-level group basis –
 - (A) not later than 10 calendar days after the last day of each month, the Reporting Bank’s Group level or country-level group level returns, as the case may be; and
 - (B) not later than 20 calendar days after the last day of each month, the Reporting Bank’s entity-level returns;

- b) in the case of a Reporting Bank which does not fall under sub-paragraph (a), the Reporting Bank's entity-level returns not later than 10 calendar days after the last day of each month.

[MAS Notice 649 (Amendment) 2016]

[MAS Notice 649 (Amendment) 2019]

Effective date and transitional arrangements

- 118 Subject to paragraph 119, this Notice shall take effect on 1 January 2015 for a bank incorporated and headquartered in Singapore, and 1 January 2016 for all other banks in Singapore (collectively referred to as "effective date").
- 119 A bank in Singapore to which paragraph 118 applies may at any time before the effective date, elect to comply with this Notice by giving written notice of this to the Authority at least 1 month before the intended date of compliance as specified in the Notice; and as from the intended date of compliance ("early compliance date"), this Notice shall apply to the bank.
- 120 A bank transitioning from complying with the minimum liquid assets requirement in MAS Notice 613 in force immediately before the effective date ("old MLA requirement") to the LCR framework, shall maintain the old MLA requirement up to the effective date or the early compliance date, as the case may be.
- 121 A bank complying with Part II – LCR of this Notice for the period from 1 Jan 2015 to 31 Dec 2015 ("relevant period") shall only submit Form 2 Section 1A in Appendix 5 for the relevant currencies and Forms 3 to 7, where applicable, of the old MLA requirement during the relevant period.

Exclusion as Qualifying Liabilities

- 1 Subject to paragraph 2 of Appendix 1 of this Notice, a Reporting Bank may exclude a bill of exchange as its Qualifying Liabilities if –
 - a) the bill of exchange is denominated in Singapore Dollars. Where the underlying transaction referred to the bill of exchange is denominated in a foreign currency, the bill shall be substituted for the first time into a Singapore dollar usance bill;
 - b) the bill of exchange relates to a trade transaction and reference to such a transaction shall appear on the face of the bill. The trade transaction shall be in respect of imports into or exports from, Singapore and includes trade transactions between foreign exporters and foreign importers arranged by companies in Singapore. The first discounting bank shall ascertain that the bill of exchange is in fact related to trade transactions by examining the appropriate documents and obtaining written declarations from their customers that they have not sought or obtained other means of financing; and
 - c) the outstanding period to maturity of the bill of exchange is 3 months or less.

[MAS Notice 649 (Amendment) 2019]

- 2 A Reporting Bank shall not exclude the following bills of exchange from its Qualifying Liabilities:
 - a) any bill which originates from a “switch transaction” where the transaction is solely between a foreign exporter and a foreign importer and the foreign currency trade bill is “switched” into a Singapore dollar bill and financed here;
 - b) any bill which is a bill drawn for a trade transaction in Singapore where all parties are in Singapore;
 - c) any bill which is a bill relating to services;
 - d) any bill which relates to a trade transaction where payment has been made, i.e. where the supporting invoice has been paid by the customer prior to presentation of the bill to a bank for discounting;
 - e) any bill which is overdue or been extended beyond the maturity date and a new bill has been drawn to substitute or roll-over the matured bill, regardless of whether the original bill had 3 months or less to maturity at the time it was discounted by the bank;

- f) any bill which is drawn for imports where the importer is also receiving credit from the seller for the same period, as the imports would effectively be financed by the seller and not from proceeds of the bill.

[MAS Notice 649 (Amendment) 2019]

Qualification as Approved Liquid Assets

- 1 A Reporting Bank which purchases a bill of exchange denominated in Singapore Dollars from another bank in Singapore may include such a bill as liquid assets if –
- a) the bill has been endorsed by one or more banks in Singapore;
 - b) the purchasing Reporting Bank obtained a written confirmation from the first discounting bank that –
 - i) the first discounting bank had taken necessary and sufficient steps to ascertain that the bills are in fact related to trade transactions as evidenced on the bills;
 - ii) the bill does not originate from a “switch transaction” where the transaction is solely between a foreign exporter and a foreign importer and the foreign currency trade bill is “switched” into a Singapore dollar bill and financed here;
 - iii) the bill is not drawn for a trade transaction in Singapore where all parties are in Singapore;
 - iv) the bill does not relate to services;
 - v) the bill does not relate to a trade transaction where payment has been made, i.e. where the supporting invoice has been paid by the customer prior to presentation of the bill to a bank for discounting;
 - vi) the bill has not become overdue or been extended beyond the maturity date and no new bill has been drawn to substitute or roll-over the matured bill, regardless of whether the original bill had 3 months or less to maturity at the time it was discounted by the bank;
 - vii) the bill is not drawn for imports where the importer is also receiving credit from the seller for the same period (as the imports would effectively be financed by the seller and not from proceeds of the bills); and
 - c) the outstanding period to maturity of the bill shall be 3 months or less. A bill originally drawn for more than 3 months shall only be eligible as liquid asset when there is 3 months or less to maturity.

Credit Ratings and Relevant Values

Description	Moody's	S&P	Fitch	Percentage
Long Term Issue Ratings	Aaa	AAA	AAA	90%
	Aa1	AA+	AA+	
	Aa2	AA	AA	
	Aa3	AA-	AA-	80%
	A1	A+	A+	
	A2	A	A	
	A3	A-	A-	
	Baa1	BBB+	BBB+	70%
	Baa2	BBB	BBB	

Description	Moody's	S&P	Fitch	Percentage
Short Term Issue Ratings	P-1	A-1	F-1	90%
	P-2	A-2	F-2	80%
	P-3	A-3	F-3	70%

If more than one rating is available, a Reporting Bank shall use the lowest rating. Where a particular debt issue is assigned both long term and short term ratings, a Reporting Bank shall apply the lower percentage.

Submission Requirements**Summary of forms**

	Title
Form 1 Section 1	Assets and Liabilities by Currency
Form 1 Section 2	Top 20 individual depositors
Form 1 Section 3	Top 20 corporate depositors
Form 1 Section 4	Top 20 interbank lenders
Form 2 Section 1A	Liquidity Coverage Ratio
Form 2 Section 1B	Minimum Liquid Assets
Form 2 Section 2	Contractual cash flow for on and off-balance sheet items
Form 2 Section 3	Contractual residual maturity of on and off-balance sheet items
Form 2 Section 4	Behavioural cash flow of on and off-balance sheet items
Form 2 Section 5	Available unencumbered liquid assets

- 1 A Reporting Bank shall submit 1 copy of Form 1, but as many copies of Form 2 as there are significant currencies on an entity level and a Group level, if any. A Reporting Bank may, in consultation with the Authority, determine an alternate methodology to determine its significant currencies if the default methodology in paragraph 17 does not properly reflect the funding structure of the Reporting Bank. The forms to submit are given in the table below.

[MAS Notice 649 (Amendment) 2019]

Country level compliance

- 2 As per paragraph 4 of the Notice, a Reporting Bank on the LCR framework may elect to comply with the LCR on a country-level group basis, by consolidating the balance sheets of related banking entities in Singapore. Each Reporting Bank within the country-level grouping shall submit the same set of forms as if they were complying with the LCR on an individual level.

[MAS Notice 649 (Amendment) 2019]

- 3 The Reporting Banks within each country-level grouping shall select an entity to perform the country-level submission, and this choice has to be made known to the Authority. The country level submission shall follow the steps as per the individual entity submission, but the details of the entities in the country-level grouping shall be indicated in Section 1 of both Form 1 and Form 2.

[MAS Notice 649 (Amendment) 2019]

Calculation of the cap on Level 2 HQLA with regard to short-term securities financing transactions

- 1 This appendix describes the method that a Reporting Bank shall apply for the calculation of the cap on Level 2A, Level 2B and Level 2B(II) HQLA with regard to short-term securities financing transactions.

[MAS Notice 649 (Amendment) 2019]

- 2 As stated in paragraph 26 of the Notice, the calculation of the 40% cap on Level 2 HQLA shall take into account the impact on the stock of HQLA of the amounts of Level 1 and Level 2 HQLA involved in secured funding¹⁸, secured lending¹⁹ and collateral swap transactions maturing within 30 calendar days. The maximum amount of adjusted Level 2 HQLA in the stock of HQLA shall be equal to two-thirds of the adjusted amount of Level 1 HQLA after haircuts have been applied. The calculation of the 40% cap on Level 2 HQLA shall take into account any reduction in eligible Level 2B HQLA on account of the 15% cap on Level 2B HQLA.

- 3 The calculation of the 15% cap on Level 2B HQLA shall take into account the impact on the stock of HQLA of the amounts of HQLA involved in secured funding, secured lending and collateral swap transactions maturing within 30 calendar days. The maximum amount of adjusted Level 2B HQLA in the stock of HQLA shall be equal to 15/85 of the sum of the adjusted amounts of Level 1 and Level 2A HQLA, or, in cases where the 40% cap is binding, up to a maximum of 1/4 of the adjusted amount of Level 1 HQLA, both after haircuts have been applied.

[MAS Notice 649 (Amendment) 2019]

- 4 Further, the calculation of the 5% cap on Level 2B(II) HQLA shall take into account the impact on the stock of HQLA of the amounts of HQLA assets involved in secured funding, secured lending and collateral swap transactions maturing within 30 calendar days. The maximum amount of adjusted Level 2B(II) HQLA in the stock of HQLA shall be equal to 5/95 of the sum of the adjusted amounts of Level 1, Level 2A and Level 2B(I) HQLA, or in cases where the 15% cap is binding, up to a maximum of 5/85 of the adjusted amount of Level 1 and Level 2A HQLA, or in cases where the 40% cap is binding, up to a maximum of 5/60 of the adjusted amount of Level 1 and, after haircuts have been applied.

[MAS Notice 649 (Amendment) 2019]

¹⁸ Refer to paragraph 60

¹⁹ Refer to paragraph 92

- 5 The adjusted amount of Level 1, Level 2A, Level 2B(I) and Level 2B(II) HQLA is defined as the amount of Level 1, Level 2A, Level 2B(I) and Level 2B(II) HQLA that would result after unwinding those short-term secured funding, secured lending and collateral swap transactions involving the exchange of any HQLA for any Level 1, Level 2A, Level 2B(I) and Level 2B(II) HQLA (including cash) that meet, or would meet if held unencumbered, the operational requirements for HQLA set out in paragraph 22 of the Notice. In this context, short-term transactions are transactions with maturity date up to and including 30 calendar days. Relevant haircuts would be applied prior to calculation of the respective caps.
- 6 “Unadjusted value” refers to the value of the relevant category of HQLA after accounting for the haircuts as specified in paragraph 26 of the Notice.
- 7 “Adjusted value” refers to the adjusted value of the relevant category of HQLA after accounting for the exchange of assets in secured funding, secured lending and collateral swap transactions maturing within 30 calendar days.
- 8 The formula for the calculation of HQLA is as follows:

$$\text{HQLA} = \text{Unadjusted Level 1 HQLA} + \text{Unadjusted Level 2A HQLA} + \text{Unadjusted Level 2B(I) HQLA} + \text{Unadjusted Level 2B(II) HQLA} - \text{Adjustment for 5\% Level 2B(II) HQLA cap} - \text{Adjustment for 15\% Level 2B HQLA cap} - \text{Adjustment for 40\% Level 2 HQLA cap}$$

Where –

- a) Adjustment for 5% Level 2B(II) HQLA cap = MAX (Adjusted Level 2B(II) HQLA - (5/95)*(Adjusted Level 1 HQLA + Adjusted Level 2A HQLA + Adjusted Level 2B(I) HQLA), Adjusted Level 2B(II) HQLA - (5/85)*(Adjusted Level 1 HQLA + Adjusted Level 2A HQLA), Adjusted Level 2B(II) HQLA - (5/60)*Adjusted Level 1 HQLA,0)
- b) Adjustment for 15% Level 2B HQLA cap = MAX ((Adjusted Level 2B(I) HQLA+ Adjusted Level 2B(II) HQLA – Adjustment for 5% Level 2B(II) HQLA cap) - (15/85)*(Adjusted Level 1 HQLA + Adjusted Level 2A HQLA), Adjusted Level 2B(I) HQLA+ Adjusted Level 2B(II) HQLA – Adjustment for 5% Level 2B(II) HQLA cap - (15/60)*Adjusted Level 1 HQLA,0)
- c) Adjustment for 40% Level 2 HQLA cap = MAX ((Adjusted Level 2A HQLA + Adjusted Level 2B(I) HQLA + Adjusted Level 2B(II) HQLA - Adjustment for 5% Level 2B(II) HQLA cap - Adjustment for 15% Level 2B(I) HQLA cap) - (2/3)*Adjusted Level 1 HQLA,0)

[MAS Notice 649 (Amendment) 2019]

Principles for Sound Liquidity Risk Management and Supervision

The guidelines referred to in paragraph 5A are as follows:

- a) a Reporting Bank should actively monitor and control liquidity risk exposures and funding needs at the level of individual legal entities, foreign branches and subsidiaries, and the banking group as a whole, taking into account legal, regulatory and operational limitations to the transferability of liquidity;
- b) where applicable, a Reporting Bank should have processes in place to capture all existing liquidity transfer restrictions to the extent practicable, and to monitor the rules and regulations in the jurisdictions in which the banking group operates and assess their liquidity implications for the group as a whole;
- c) a Reporting Bank should conduct their own stress tests to assess the level of liquidity they should hold, and construct their own scenarios that could cause difficulties for their specific business activities. Such internal stress tests should incorporate time horizons longer than 30 days. D-SIBs and internationally active banks should share the results of these additional stress tests with supervisors;
- d) a Reporting Bank should monitor the legal entity and physical location where collateral is held and how it may be mobilised in a timely manner. Specifically, it should have a policy in place that identifies legal entities, geographical locations, currencies and specific custodial or bank accounts where liquid assets are held. For the purposes of this Appendix, “liquid assets” means, in relation to a Reporting Bank which must comply with –
 - i) Part I of this Notice, assets approved under paragraph 7, and
 - ii) Part II of the Notice, assets approved under paragraph 21;
- e) a Reporting Bank should actively manage its intraday liquidity positions and risks to meet payment and settlement obligations on a timely basis under both normal and stressed conditions and thus contribute to the smooth functioning of payment and settlement systems;
- f) a Reporting Bank should meet their liquidity needs in each currency and maintain liquid assets consistent with the distribution of their liquidity needs by currency. The Reporting Bank should be able to use the liquid assets to generate liquidity in the currency and jurisdiction in which the net cash outflows arise. In managing foreign exchange liquidity risk, the Reporting Bank should take into account the risk that its ability to swap currencies and access the relevant foreign exchange markets may erode rapidly under stressed conditions. A Reporting Bank should be aware that sudden,

adverse exchange rate movements could sharply widen existing mismatched positions and alter the effectiveness of any foreign exchange hedges in place;

- g) a Reporting Bank should ensure that liquid assets held are well diversified within the asset classes themselves (except for sovereign debt of the Reporting Bank's home jurisdiction or from the jurisdiction in which the Reporting Bank operates; central bank reserves; central bank debt securities; and cash). The Reporting Bank should have policies and limits in place in order to avoid concentration with respect to asset types, issue and issuer types, and currency (consistent with the distribution of net cash outflows by currency) within asset classes;
- h) a Reporting Bank should monitor the concentration of expected inflows across wholesale counterparties in the context of the Reporting Bank's liquidity management in order to limit overreliance on the arrival of expected inflows from one or a limited number of wholesale counterparties.
