

4 JULY 2023

REOPENING OF 50Y GREEN SGS (INFRASTRUCTURE) (AUG-72) VIA SYNDICATION IN 2H 2023

MAS will reopen the 50-year Green SGS (Infrastructure) NC22300W (Aug-72) via syndication in the second half of 2023.

2 The 50Y Green SGS (Infrastructure) (Aug-72) was first issued on 15 August 2022, under the [Singapore Green Bond Framework](#). Proceeds from the Aug-72 will be used to finance expenditures in support of the Singapore Green Plan 2030, including the Jurong Region Line and Cross Island Line.

3 Syndication involves the appointment of a group of banks, known as bookrunners, to jointly market and distribute a bond. The syndication of the Aug-72 will take place under the Medium Term Note Programme established last year. More information about the syndication process is set out on the [MAS website](#).

4 Further details of the issuance, including the appointed bookrunners and indicative issuance size, will be made available at a later date on the [2023 Auctions and Issuance Calendar page](#) on the MAS website.
